**Medicaid Innovation Accelerator Program (IAP)**

- Four year commitment by CMS to build state capacity and support ongoing innovation in Medicaid through targeted program support.
- IAP supports states’ and HHS delivery system reform efforts:
  - Focus on improving the way providers are incentivized, the way care is delivered, and the way information is distributed
- The end goal for IAP is to increase the number of states moving towards delivery system reform across program priorities
**Medicaid Innovation Accelerator Program**

- **IAP program priority areas:**
  - Reducing Substance Use Disorders
  - Improving Care for Medicaid Beneficiaries with Complex Needs & High Costs
  - Promoting Community Integration—Long-Term Services and Supports
  - Physical and Mental Health Integration

- **Key functional areas for IAP efforts:**
  - Data analytics
  - Quality measures
  - Payment modeling and financial simulations
  - Rapid-cycle learning

---

**IAP-PMH Goals and Intended Outcomes**

- Improving the financing, measurement, scope, and/or other aspects of existing state PMH integration initiatives

- Expanding and/or enhancing existing PMH integration efforts to:
  - Customize for specific populations
  - Expand to new areas of the state
  - Expand to new types of health professionals

- Identifying and spreading state innovations that that improve and expand PMH integration initiatives
Proposed Approach IAP-PMH Program Support for State Medicaid Agencies

- Tailored to states’ existing environment, resources, policy levers, and priorities
- Areas for support: provider/system transformation, payment models, regulatory issues, model contract language
- Enhanced use of data, including tools and strategies to support risk stratification and population segmentation
- Use of driver diagrams, program planning and rapid cycle learning/improvement theory

IAP-PMH Program Components

- Strategic planning
- In-person workshop
- Individualized technical support
- Peer-to-peer learning opportunities
- In-person wrap-up workshop (potential)
