

Sponsored by the USUHS SOM and NCDMPH

**Disaster Health Education Symposium: *Advancing the State of the Art***  
**Uniformed Services University of the Health Sciences**  
4301 Jones Bridge Road, Bethesda, Maryland 20814  
**Thursday, September 7, 2017**

**Goal**

Provide a structured forum that brings together experts to share current national and international educational and training research and practice relevant to the disaster medicine and public health preparedness community.

**Target Audience**

An interdisciplinary group of academia, associations, the private sector, Federal, State, local, tribal Governments and the Military.

**Objectives**

By the conclusion of this symposium, attendees should be able to:

- Describe current and potential best practices in disaster medicine and public health education and learning
- List current research efforts related to disaster health and disaster health education
- Discuss innovative education methods and technology related to disaster medicine and public health
