- Filling the Tear Trough
- Filler Gone Bad – Evaluation and Treatment
- Treatment of Periocular Lesions
- Skin Resurfacing without the Laser
- Questions and Answers/Panel Discussion

Saturday, March 11, 2023

7:00 AM - 4:45 PM

Browlift/ Upper Blepharoplasty/Injectables

- How Facial Anatomy Dictates Surgery
- Anatomy and Biomechanics of Brow Lifting, Surgical Approaches
- Non-Endoscopic Temporal Brow Lift
- Classic Endoscopic Brow Lift
- Temporal Direct Brow Lift/Pretrichial Brow Approach/Male Endobrow
- **Cadaver Demonstration:**
Direct, Endoscopic and Pretrichial Brow Lift
- **Lecture and Cadaver Demonstration:**
Non-Endoscopic Temporal Brow Lift
- **Hands-on Cadaver Dissection Lab:**
Browlifting Procedures
- Upper Eyelid Anatomy – Crucial Points
- Upper Blepharoplasty – Make it a Favorite Procedure
- **Cadaver Demonstration:**
Upper Blepharoplasty with Fat Repositioning, Brow Fat Pad Suspension
- Varied Options in Volumizing the Face and Blepharoplasty Surgery
- Avoiding and Managing Upper Blepharoplasty Complications
- **Hands-on Cadaver Dissection Lab:**
Upper Blepharoplasty with Fat Repositioning Fat Transfer Techniques/ Fillers/ Injectables
- Discussion Questions and Answers/Wrap Up

Sunday, March 12, 2023

7:00 AM - 3:00 PM

Lower Blepharoplasty/Canthoplexy/ Canthoplasty

- Lower Lid Anatomy – Crucial Points
- Lower Blepharoplasty – Blending the Lid/ Cheek Junction
- **Cadaver Demonstration:**
Lower Blepharoplasty with Fat Repositioning/ Trans-Eyelid Midface Lifting
- Aesthetic Canthoplexy and Canthoplasty - When, Where How
- **Cadaver Demonstration:**
Canthoplexy and Canthoplasty
- My Experience with Post Blepharoplasty Lower Lid Retraction
- **Hands-on Cadaver Dissection Lab:**
Lower Blepharoplasty with Fat Repositioning/ Trans-Eyelid Midface Lifting Canthoplexy and Canthoplasty
- Transcutaneous Lower Lid Blepharoplasty: Where/When/How?
- Festoon Management
- Lower Blepharoplasty: Lessons Learned Over the Years
- **Optional: Hands-on Cadaver Dissection Lab:**
Open Lab with limited Supervision Continued Periorbital Procedures

TUITION FEES:

Physicians:\$2495
Residents/Fellows/USA Military:\$1395

If cancellation is received prior to February 10, 2023, you will receive a 90% refund of your registration fee. Please note that it will take 5-10 business days for the refund to be posted back to your account.

The education the participant gains through our CME activities does not satisfy training requirements to perform the surgery.

Course Directors

Jill A. Foster, MD, FACS

Associate Professor
The Ohio State University
Nationwide Children's Hospital
Eye Center of Columbus
Columbus, OH

David E.E. Holck, MD, FACS

Clinical Associate Professor of Ophthalmology

EDUCATIONAL OBJECTIVES

The workshop has been designed to provide Cosmetic Facial Surgeons and Dermatologists a comprehensive overview of the surgical and nonsurgical rejuvenation techniques for the Periorbital area.

- Understand the role of adjunctive techniques, to include fillers and fat transfer that enhance the results in eyelid and periorbital surgery.
- Discuss how to perform safe and aesthetic eyelid and periorbital surgery by covering safety of anesthesia, incision placement, multiple technical options and postop care along with management of complications.
- Observe surgical demonstrations of each procedure performed by the renowned faculty
- Discuss and perform each procedure in the cadaver laboratory with assistance from the experts.

CONTINUING EDUCATION:

Accreditation: Saint Louis University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation: Saint Louis University School of Medicine designates this live activity for a maximum of **18.0 AMA PRA Category 1 Credit(s)**™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
