

Practical Symposium 2022  
Park Hyatt Beaver Creek  
August 4-7, 2022

This activity is supported by educational grants and/or in kind product donations from:

Almirall

**Target Audience:** This educational activity is designed for Dermatologists, Mohs Surgeons, Dermatology Residents, Dermatology & Mohs Fellows, Dermatology Physician Assistants, Dermatology Nurse Practitioners, Dermatopathologists, Pathologists, Dermatopathology Fellows, and Pathology Residents.

**Needs Assessment:** The specialties of dermatology and dermatopathology work closely together to provide the best possible treatment plan and care of each patient. With the rapid advancements in emerging surgical techniques, enhanced diagnostic tools and evolving treatment options, it's more important than ever to remain in front of industry trends and collaborate to continue providing the highest level of care to each patient

**Statement Purpose** The conference will be different from the typical dermatology conferences in that we will emphasize clinicopathologic correlation and how dermatopathologists and dermatologists can work together to establish accurate diagnoses and plan optimal treatment. Furthermore, the conference will also emphasize how clinicopathologic correlation can guide research, new treatment options and device product development within dermatology. Thus, it is more important than ever to understand the close cross-fertilization that occurs among dermatology, dermatopathology and industry. While the conference will provide a rich educational experience, this interaction between dermatology, dermatopathology and industry will be explored in a number of different sessions and lectures throughout the symposium. This meeting will also allow ample opportunity for networking of attendees with industry leaders who will be welcomed into all educational sessions. The conference will also benefit physicians in industry who interact with clinicians and other researchers. It will also be beneficial to residents and fellows preparing for certifying examinations or attending physicians preparing for their recertification exams.

**Educational Objectives:** After completing this activity, the participant should be better able to:

- Summarize the current trends and future innovations associated with clinical dermatology and dermatopathology.
- Apply an improved knowledge base of the various treatment options and the use of multiple modalities in treating specific dermatologic disorders.
- Describe the basic principles for treatment of dermatologic disorders including biologics, combination therapy and the future of treatment.
- Apply learned skills about the clinical and histopathology features, management and treatment of common skin cancers and non-cancerous skin disorders
- Assess the use of physical therapies in the treatment of skin lesions including cryotherapy, radiation therapy, photodynamic therapy, and light therapy.

## **Accreditation Statement**

In support of improving patient care, this activity has been planned and implemented by Medical Education Resources (MER) and Meeting Designs. MER is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

## **Physician Credit Designation**

Medical Education Resources designates this live activity for a maximum of 25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## **American Nurses Credentialing Center (ANCC) Credit Designation**

Medical Education Resources designates this live activity for a maximum of 25 ANCC nursing contact hours. Nurses will be awarded contact hours upon successful completion of the activity.

## **American Academy of Nurse Practitioners (ANNP) Credit Designation**

The American Academy of Nurse Practitioners (AANP) Certification Board recognizes and accepts continuing education (CE) 25 contact hours from activities approved by AMA, ACCME, ANCC, AANP.

## **Physician Assistant Credit Designation**

Medical Education Resources has been authorized by the American Academy of Pas (AAPA) to award AAPA Category 1 CME credit for activities planned in accordance with AAPA CME Criteria. This activity is designated for 25 AAPA Category 1 CME credits. Pas should only claim credit commensurate with the extent of their participation.

## **American Board of Dermatology MOC Recognition**

Successful completion of qualified Maintenance of Certification (MOC) activities, which includes participation in the quiz evaluation component, enable participants to earn up to ~60 MOC points in the American Board of Dermatology MOC program. Participants have the opportunity to earn MOC points for each quiz question attempted during qualified MOC sessions. It is the attendee's responsibility to self-report earned MOC credits to the American Board of Dermatology.

## **American Board of Pathology MOC Recognition Statement**

This activity has been registered to offer credit in the American Board of Pathology's Continuing Certification program. Successful completion of this CME activity, which includes participation in the quiz evaluation component, enables the participant to earn up to 25 Lifelong Learning (CME) in the American Board of Pathology (ABPath) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting MOC credit and recognizing participation. The participant's AB Path# and date of birth (MMDD) is needed to upload the credits.

## **Disclaimer**

The content and views presented in this educational activity are those of the authors and do not necessarily reflect those of Medical Education Resources, Practical Symposium, Meeting Designs and the educational supporters. The authors have disclosed if there is any discussion or published and/or investigational uses of agents that are not indicated by the FDA in their presentations. The opinions expressed in this educational activity are those of the faculty and do not necessarily represent the views of Medical Education Resources, and the educational supporters. Before prescribing any medicine, primary references and full prescribing information should be consulted. Any procedures, medications, or other courses of diagnosis or treatment discussed or suggested in this activity should not be used by clinicians without evaluation of their patient's conditions and possible contraindications or dangers in use, review of any applicable manufacturer's product information, and comparison with recommendations of other authorities. Information presented in this activity is not meant to serve as a guideline for patient management.

### **Disclosure of Conflicts of Interest**

Medical Education Resources ensures balance, independence, objectivity, and scientific rigor in all of our educational activities. In accordance with this policy, MER identifies conflicts of interest with its' instructors, content managers, and other individuals who are in a position to control the content of an activity. Conflicts are resolved by MER to ensure that all scientific research referred to, reported, or used in a CME activity conforms to the generally accepted standards of experimental design, data collection, and analysis. MER is committed to providing its' learners with high-quality CME activities that promote improvements or quality in health care, and not the business interest of a commercial interest.

The **faculty** reported the following financial relationships with commercial interests whose products or services may be mentioned in this CME activity:

<b><i>Name of Faculty</i></b>	<b><i>Reported Financial Relationship</i></b>
James Allred, MD	No financial relationships to disclose
Dipti Anand, MD	No financial relationships to disclose
