Course name: Wastewater Emissions Essentials

Full or half day/time/date: Full Day; 8am – 5pm; Thursday, 2/19/2015

Instructor + company: Rajeev Goel, Hydromantis Solutions

Bio: Rajeev Goel, Ph.D., P.E. is the president of Hydromantis and a co-developer and product manager for Toxchem. Rajeev has over 25 years of experience in the fields of water and wastewater engineering. Rajeev led the upgrade of Toxchem from V3 to V4 and has been managing the development ever since. Rajeev specializes in the various aspect of modeling municipal and industrial wastewater treatment plants and possesses in-depth fundamental knowledge of the underlying emission models in Toxchem. Rajeev is a registered engineer in the Province of Ontario, an active member of the scientific community, and contributes through publishing and performing peer review.

Course description: HSE University partners with Hydromantis to bring you this introductory course designed to grow your knowledge of the fundamentals of wastewater emissions. From the basic structure of relevant air regulations, to the tools available to accurately estimate and model your wastewater emissions and help you reduce your emissions credits, TRI reductions, and much more!

Learn the essentials and gain hands-on experience in this course designed to benefit compliance coordinators, compliance engineers, and new & existing Toxchem™ users.
