

A CENTURY OF SERVICE

Since1900, AAA has been a steadfast advocate for safe mobility. AAA is a federation of fully taxpaying, not-for-profit automobile Clubs in the U.S. and Canada with more than **65 million members**.

In California, AAA's legacy is carried forward by the **Automobile Club of Southern California** and **AAA Northern California**. Together, these clubs provide world-class service to more than **13.6 million AAA Members** across the state.

NATIONAL REACH

A Household Staple

1 in 4 U.S. households include at least one AAA member.

Relentless Service

AAA/CAA delivers **around-the-clock roadside assistance**, helping a member at the roadside every single second.

The Ultimate Travel Resource

Members trust AAA with their journeys, with **one-third** of members relying on AAA for travel information annually.

Global Mobility

AAA is a vital link for international travel, issuing **1.4 million International Driver Permits** in 2025.

DRIVING CALIFORNIA'S SAFETY & ECONOMY

A Trusted Partner

We serve **over 55% of California households**, providing a safety net for millions of drivers across the Golden State.

MajorEmployer

We provide **jobs for over 14,500 Californians,** fostering economic opportunity within every community we serve.

Reliabilityon the Road

We come to the aid of over **7.3 million Californians** at the roadside every year.

Local Presence

Our **180+ service locations** act as community hubs for travel, insurance, and safety needs.

Protecting Millions

We provide reliable insurance coverage and peace of mind to over **4.7 million** drivers, homeowners, and families statewide.

Streamlining State Services

We reduce the burden on state agencies by processing over **6.1 million DMV transactions** annually.

Culture ofService

Our employees are community leaders, contributing **nearly 26,000 volunteer hours** to the communities where they live and work.

ADVANCING SAFETY FOR EVERY ROAD USER

AAAenhances road safetyby combiningproactive advocacy withdata-driveninsights from the AAA Foundation for Traffic Safety and AAA's Automotive Research Center.

OUR COMMITMENT TO A SAFER CALIFORNIA INCLUDES:

Protecting Roadside Workers

We successfully championed the expansion of California's Slow Down, Move Over Law to protect all stranded motorists, and we continue investing in technology to ensure roadside safety.

ImpairedDrivingPrevention

In partnership with MADD, we are targeting a 20% reduction in impaired driving fatalities by 2031 through policy solutions like Ignition Interlock Device legislation.

Cultivating Attentive Drivers

We advanced California's distracted driving law to prohibit drivers from holding handheld electronic devices while operating a vehicle.

Strengthening Child Passenger Safety

We strengthened California's child passenger safety law to protect vulnerable children not adequately secured by seat belts.

Empowering Teen Drivers

We prepare novice drivers and their families for safe licensure by providing DMV-approved education that instills lifelong safety habits.

Making E-Bikes Safer

We are advocating for stricter e-bike safety standards, supporting legislation to eliminate multi-mode 'switchable' settings and the marketing of high-power motors as street-legal.

AAA is a leading source of year-round research on road safety and mobility. Contact the AAA Government Affairs team to access our existing library or to be notified of future research releases. All data and policy updates contained herein are accurate as of May 2026.
