COURSE OPTIONS

Itron offers the following comprehensive training courses for MV-90 xi (Multi-Vendor Translation System) Software:

1. **Beginning Operational:** Four (4) day course from 8:30 a.m. to 4:30 p.m. Please refer to the following schedule for dates. The cost of this training is $2,600 (USD) per person. This course is designed for operators, data analysts, or anyone who needs to know basic operational applications. Please refer to the MV-90 xi Beginning Operational Course Syllabus for detailed topic information.

2. **Advanced & Administrative Operational:** Four (4) day course from 8:30 a.m. to 4:30 p.m. Please refer to following schedule for dates. The cost of this training is $2,600 (USD) per person. This course is designed for experienced operators or data analysts who have solid basic operational experience and would like to know advanced operational applications. This course is also for anyone who is responsible for administering the system from an operational perspective. Please refer to the MV-90 xi Advanced Operational Course Syllabus for detailed topic information.

3. **IT Professional:** Three (3) day course from 8:30 a.m. to 4:30 p.m. Please refer to following schedule for dates. The cost of this training is $2,400 (USD) per person. This course is designed for the IT Professional whose responsibility is to install, upgrade, and support MV-90 xi, but is not necessarily an operator. Please refer to the IT Course Syllabus for detailed topic information.

4. **On-Site Courses or Customized Training:** Itron also offers the same courses or customized MV-90 xi training on-site at Customer locations. The Customer selects the course or selects specific topics customized to their specific needs from a module syllabus that is provided by Itron. The cost of MV-90 xi on-site training is billed at the applicable hourly rate, plus travel and living expenses. If interested, please contact mv.services@itron.com or call 877-487-6602.

2027 MV-90 XI TRAINING SCHEDULE (MAX 12 PER CLASS)

	April	May	June
4 Day Basic Operational Class Size: 12 Min Class Size: 6		May 18-21	
4 Day Advanced/Admin. Operational Max Class Size: 12 Min Class Size: 6			June 15-18
3 Day IT Max Class Size: 12 Min Class Size: 5	April 20-22		

Note: This schedule is subject to change four weeks prior (20 business days) if minimum attendance is not met. If you plan to attend, please register as soon as possible. Itron strongly recommends waiting to book airfare with no more than four weeks advance purchase unless the class attendance is confirmed by Itron.

HOW TO REGISTER

To view current training schedule to register and make payment, please click on the following link or copy/paste the URL in your browser:
https://www.itron.com/na/events/event-calendar?region=NAM

You need to register at least twenty (20) business days prior to the date of the class. Payment by credit card or company check/money order must be received within twenty (20) business days prior to the class starting date in order to confirm your attendance. NOTE: Course fees do not include transportation, meals or hotel expenses.

To register for a training class, you will be prompted to login using an assigned User ID and Password. This is the same as the User ID and Password used to access Itron's support website. If you currently do not have a user profile, please select the "New User" option to build a profile and obtain a User ID and Password.

Select the training event to register and proceed to checkout. You will be prompted to select a payment method. A billing address is requested; however, a bill will not be mailed to this address. Instead, you will receive an email to the address Itron has on file for you. This email will include a confirmation number, a total balance and training check-in instructions. Please read this email and follow the instructions carefully.

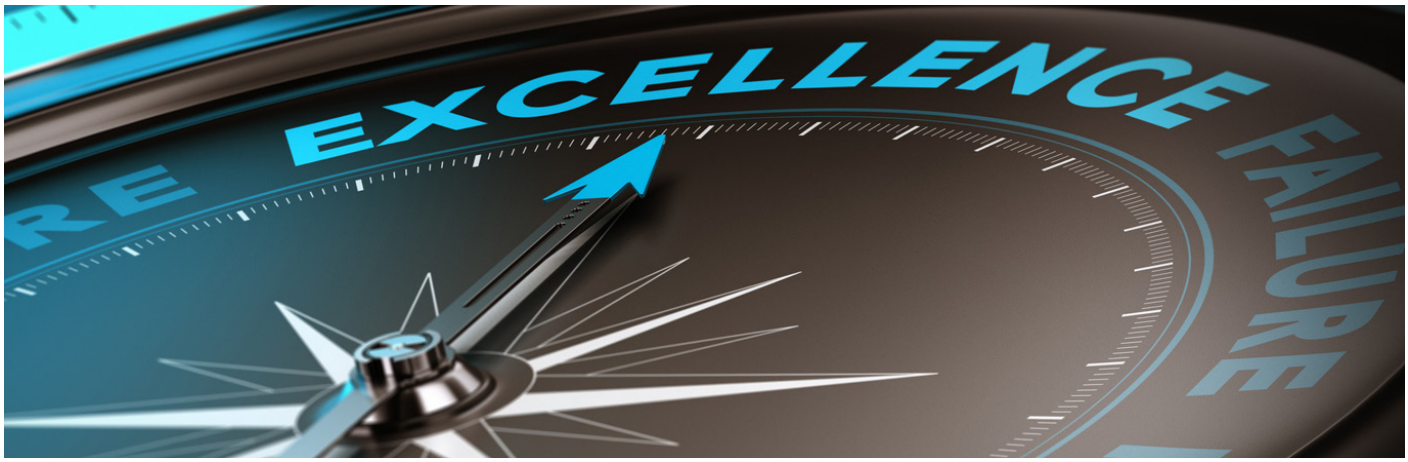

CANCELLATIONS/REFUNDS

Itron recommends registering with as much notice as possible and not to purchase airfare more than four weeks in advance unless the class attendance is confirmed by Itron.

Prior to purchasing your airfare, please contact Itron Technical Support at 877-487-6602, support@itron.com to confirm class size. There is a risk of rescheduling or cancellation due to low registration.

All paid/confirmed attendees will be notified by Itron at least ten (10) to fifteen (15) business days prior to cancellation or rescheduling if minimum attendance is not met. A full refund for the course will be provided if attendees are unable to reschedule.

If an attendee cancels, a full refund will be provided if Itron is notified of a cancellation more than ten (10) business days prior to the course. A 50% refund will be provided if Itron receives notice of cancellation between ten (10) to five (5) days. If Itron is notified of a cancellation less than five (5) business days, the course is non- refundable.

MV-90 XI BEGINNING OPERATIONAL TRAINING PREREQUISITES AND TOPICS

The course prerequisites are that the student has at least one month exposure to and is somewhat familiar with the product's terminology and application interface in order to adequately maneuver through the program options and icons.

In addition, the course assumes that the student is familiar with or has knowledge of the following key technologies:

- Standard use of Microsoft Windows
- Mouse and Keyboard Functions
- Windows Explorer
- Communication Hardware
- Familiar with Metering Terms

DAY 1

- System Overview
- Menu and Task List
- Task Assignment File (TAF) Editor
- Data Retrieval Setup and Process

DAY 2

- Validation
- Reports and Graphs
- Report Control
- Data Directory Maintenance

DAY 3

- Data Editing
- Summary Mapping
- Aggregation

DAY 4

- Data Export
- Time of Use
- System Maintenance Tips and Review
- Account Reroute
- List Master File

MV-90 XI ADVANCED & ADMINISTRATIVE OPERATOR TRAINING PREREQUISITES AND TOPICS

The course prerequisites are that the student is familiar with and has one to two years' experience with the previous version(s) of MV-90 xi application and understanding of its terminology and application to easily maneuver through the program options. Due to the advanced material covered and rapid pace of the course, a student with little or no prior exposure to the MV-90 xi application will be at a disadvantage.

In addition, the course assumes that the student is familiar with the following key technologies:

- Windows Explorer (maneuvering and creating folders)
- Notepad (creating and editing)
- Configuration files
- Batch files
- Directory structure
- Databases

DAY 1

- MV-90 xi Architecture
- System Parameters
- Task Assignment File (TAF) Editor
- Master File Maintenance
- Cycle Day Maintenance

DAY 2

- Data Retrieval /RI_DAILY
- Data Validation
- Data Directory
- Data Editing / Automatic Estimation

DAY 3

- Summary Mapping
- Aggregation / TO_DAILY
- Data Export / XF_DAILY

DAY 4

- Automatic Reports and Graphs / RP_AUTO
- Maintenance and MV-90 xi Operator Tasks

MV-90 XI IT TRAINING TOPICS

The course prerequisites are that the student has some limited exposure to the previous MV-90 xi product and its accompanying documentation and has some understanding of how MV-90 xi is operated and understands its terminology. In addition, the course assumes that the student is familiar with the following key technologies:

- Server Support, Security, and Backup
- Operating Systems
- Client-Server Architectures
- Directory Sharing and Drive Mapping
- Administrative Tools
- SQL Server and SQL Express

DAY 1

- System Requirements
- System Architecture
- Security and Permissions

DAY 2

- MS SQL Server and SQL Express
- Test and Disaster Recovery Systems
- Communication

DAY 3

- xiUpgrade
- xiUpdate / xiUpdate Client
- System Maintenance
- User/Operation Permission Requirements
- Firewalls and Virus Scans
- Technical Notice
