**Presentation Information**

There will be five formats for presentations at MIDTESOL Conference 2018. The formats are concurrent session presentations, mini concurrent presentations, poster session presentations, Ed Tech Bazaar presentations, and Ed Tech Bazaar demonstrations.

Concurrent session presentations will be 45 minutes in length. Concurrent session presentations could include such things as presenting research, leading a discussion, presenting as a panel, presenting practical applications and teaching ideas that work in the classroom, or presenting administrative practices.

Mini concurrent presentations will be 20 minutes. Mini concurrent presentations lend themselves well to things like teaching tips. They are oral presentations designed to encourage participation from new presenters or people who might be hesitant to fulfill the longer time of the concurrent session presentations.

Poster sessions will be held for 45 minutes at specified times during the conference. Specific guidelines for poster session presentations will be provided at the time of acceptance.
The Ed Tech Bazaar serves as a showcase area for practical applications of existing and emerging technology in the practice of TESOL. Proposals can be submitted for two formats in the Ed Tech Bazaar: presentations or demonstrations.

Ed Tech Bazaar Presentations are related to the practical application of existing or emerging technology. Presenters will clearly demonstrate how technology emerges or integrates with pedagogy within the context of the presentation. Specific examples of how the presenter has used the technology in his/her own classroom teaching context are recommended. These presentations are 45 minutes in length.

Ed Tech Bazaar demonstrations are 20 minutes in length and are given to small groups of people gathered around the presenter's table and repeated once for a total of 40 minutes. Presenters will introduce the functionality and purpose of an existing or emerging technology tool while demonstrating practical applications for use. For those doing an Ed Tech Demonstration, you will need to bring your own computer.

Media/AV Equipment
Each concurrent presentation room will be equipped with a computer, projector, and a screen. Presenters will be need to bring their presentation on a flash drive (recommended) or access the presentation through the internet if it is saved somewhere off site. Poster Presentations and Ed Tech Bazaar Demonstrations will not have AV equipment. Internet access will be available in all rooms. If you have questions or concerns about your presentation and Media/AV needs, please email alicia-ambler@uiowa.edu.
