

Abstract	Assigned presenter	Location
Cancer Screening in Lower-resource settings		
Scaling up Single Visit Approach for Cervical Cancer Screening in Thailand: Successes and Lessons Learned	Khunying Kobchitt Limpaphayom	Glen Echo
Potential capacity of endoscopic screening for gastric cancer in Japan	Chisato Hamashima	Glen Echo
1st Belarusian pilot breast cancer screening program results	Vitaliy Osharin	Glen Echo
EVALUATION OF CONVENTIONAL CYTOLOGY AND VIA AS A PRIMARY SCREENING METHODS FOR EARLY DETECTION OF CERVICAL NEOPLASIA		
4 IN YAKKASARAY DISRICT OF TASHKENT CITY	Bekhruz Yusupov	Glen Echo
IMPLEMENTATION OF A 'HUB AND SPOKES' MODEL OF DELIVERY OF CERVICAL SCREENING		
5 IN RURAL MALAWI	Christine Campbell	Glen Echo
The EUROMED Cancer Screening Network - lessons learned	Nereo Segnan	Glen Echo
From international guidelines to tailored recommendations: an open discussion within the Euromed Cancer Screening Network.	Antonio Ponti	Glen Echo
Empowering Health Care Providers in Cancer Screening Using Technology Assisted Learning	Ravi Mehrotra	Glen Echo
Need of a comprehensive quality management for Uruguay's breast ca screening program	Gonzalo Pou	Glen Echo
The International Cancer Research Partnership as a Tool to Conduct a Multi-Funder Portfolio Analysis of Research on Cancer Screening in Low-Resource Settings	Rachel Abudu	Glen Echo
Cervical Cancer Screening in the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) in four US-Affiliated Pacific Islands between 2007 and 2015	Virginia Senkomago	Glen Echo
Mathematical modeling and implications for population-based cervical cancer screening programs in Sub-saharan Africa	Adetoun Olateju	Glen Echo
The System of Performance Indicators as a Tool for Improving and the Quality Assurance of Cancer Screening Programs in Kazakhstan	Alma Zhylkaidarova	Glen Echo
Assessment of the knowledge and application of health policy for breast cancer in primary health care centers Mexico City 2016	Ruth Purisima Gonzalez Sanchez	Glen Echo
Improving Colorectal Cancer Care in Armenia—An Epidemiologic Study and Needs Assessment	Armen Aboulian	Glen Echo

Abstract	Assigned presenter	Location
Novel Technologies and Strategies for Screening		Glen Echo
The National Institutes of Health Affordable Cancer Technologies Program: Improving Access to Resource-Appropriate Technologies for Cancer Detection, Diagnosis, Monitoring and Treatment		
16 in Low- and Middle-Income Countries	Paul Pearlman	Glen Echo
Mortality reduction from gastric cancer by endoscopic screening: 6-years follow-up of a		
17 population-based cohort study	Chisato Hamashima	Glen Echo
Adjunctive ultrasonography for breast cancer screening in women aged 40-49 with dense		
18 breasts; Up-dated data from an RCT, J-START	Noriaki Ohuchi	Glen Echo
Quantitative and Serial Fecal Immunochemical Testing as a Means of Additional Risk Stratification in Colorectal Cancer Screening		
19 Programs	James Quinlan	Glen Echo
Evaluation of the benefits, harms and cost-effectiveness of colonoscopy, sigmoidoscopy, computerised tomographic colonography and plasma and faecal DNA testing as potential alternatives to iFOBT testing for colorectal		
20 cancer screening in Australia	Jie-Bin Lew	Glen Echo
Positioning quality related to the number of		
21 yearly performed mammograms?	Ellen Paap	Glen Echo
PROTEUS DONNA: a randomized trial on digital breast tomosynthesis (DBT) and digital mammography (DM) versus DM alone as screening tests for breast cancer in the Piedmont		
22 Region, Italy	Antonio Ponti	Glen Echo
CLINICAL EVALUATION OF MOLECULAR MARKERS IN THE DETECTION OF PRENEOPLASTIC LESIONS OF THE CERVIX IN		
23 WOMEN ATTENDING COLPOSCOPY.	Kelly Castañeda	Glen Echo
Cohort study of Copenhagen screened women		
24 with BI-RADS and automated density data	My von Euler-Chelpin	Glen Echo
Addition of ultrasound to mammography in the		
25 case of dense breast tissue: a meta-analysis	Matejka Rebolj	Glen Echo
The effect on outcomes of using fecal immunochemical tests (FIT) for surveillance of colorectal adenoma patients within MISCAN		
26 micro-simulation evaluation	Ethna Mcferran	Glen Echo

Abstract	Assigned presenter	Location
Using Smart Phones and Imaging of the Mobile ODT Enhanced Visual-Assessment Device to Detect Cervical Cancer in Low-Resource Settings: A Pilot Program in the Federal Democratic Republic of Ethiopia	Julie Wieland	Glen Echo
27 Benefits and harms of mammography screening in relation to breast symptoms: a historical prospective cohort study	Deependra Singh	Glen Echo
Evaluation and Modeling for Effective Screening Strategies		
29 Screening History in Women with Cervical Cancer Pap Smears in the Diagnosis of Cervical Cancer: Help or Hinder?	Laura Faye	Glen Echo
30 Cervical Screening and Colposcopy Management of Women Ages 24 and Under	Rachel Kupets	Glen Echo
31 Overdiagnosis on endoscopic screening for gastric cancer in Japan	Laura Faye	Glen Echo
32 Benefit-to-harm ratio of the Danish breast cancer screening programme	Chisato Hamashima	Glen Echo
33 Estimating the mortality reduction produced by each round of cancer screening	Anna-Belle Beau	Glen Echo
34	James Hanley	Glen Echo
THE NATIONAL COLORECTAL CANCER FIT-BASED SCREENING PROGRAM OF THE NETHERLANDS: OUTCOMES OF THE SECOND YEAR	Esther Toes	Glen Echo
35 The effectiveness and costs of the new Dutch cervical cancer screening program: offering primary HPV screening and a self-sampling kit versus primary cytology screening.	Suzette Matthijsse	Glen Echo
36 Evidence for the reduction of breast cancer mortality due to mammographic screening: a systematic review	Nadine Zielonke	Glen Echo
37 Effect of organized cervical cancer screening on mortality in Europe: a systematic review	Nadine Zielonke	Glen Echo
38 Clinical image quality and sensitivity in an organized mammography screening program	Isabelle Théberge	Glen Echo
39 Mammography screening sensitivity – A microsimulation study	Isabelle Théberge	Glen Echo
40 Interval cancer in guaiac-based CRC-screening	Johannes Blom	Glen Echo
41 Assessment of International Mammography Screening Skills (AIMSS)	Janine Timmers	Glen Echo
42 Benefits, harms and cost-effectiveness of the National Bowel Cancer Screening Program in Australia	Marion Saville	Glen Echo

Abstract	Assigned presenter	Location
Benefits, harms and costs of potential age-extensions to the National Bowel Cancer Screening Program in Australia: Impact of inviting people aged 40-49 years and 75-84 years	Marion Saville	Glen Echo
44 Costs and outcomes of Lynch syndrome screening in Australia	Iris Lansdorp-Vogelaar	Glen Echo
45		
46 Barriers to effective cancer screening in Europe Trend over a quarter of century in breast cancer incidence by detection mode and stage in		Glen Echo
47 Switzerland: what impact of screening?	Jean-Luc Bulliard	Glen Echo
Impact of colorectal cancer screening on cancer specific mortality in Europe: a systematic review	Nadine Zielonke	Glen Echo
48 Estimation of overdiagnosis in breast cancer screening using a non-homogenous multi-state		
49 model: a simulation study	Wendy Yi-Ying Wu	Linden Oak
Why are estimates of overdiagnosis in routine breast cancer screening so profoundly different?	Sisse Njor	Linden Oak
50 Factors that explain severe complications due to colonoscopies in population based colorectal		
51 cancer screening programme	Eunate Arana-Arri	Linden Oak
52 Estimation of sojourn time and sensitivity in cancer screening: a systematic review	A.M.W.M. Aarts	Linden Oak
Improvement of the sensitivity and sojourn time of mammographic screening: forty years of breast cancer screening in Nijmegen, the		
53 Netherlands	A.M.W.M. Aarts	Linden Oak
The Ontario Breast Screening Program Radiologist Outcome Report: Provider Level		
54 Performance Monitoring	Derek Muradali	Linden Oak
Radiologist one-year recall recommendation rate after a normal breast screen: Implementing provider practice change by performance		
55 monitoring and intervention	Derek Muradali	Linden Oak
56 Methods for the analysis of screen-detected outcomes using electronic health records	Rebecca Landy	Linden Oak
Pilot Organized Lung Cancer Screening for Individuals at High Risk in Ontario, Canada: A		
57 Multi-Centre Prospective Evaluation	Martin Tammemagi, Erin Svava	Linden Oak
Impacts of American Society Clinical Oncology (ASCO) versus Canadian Task Force on Preventive Health Care (CTFPHC) guidelines for		
58 cervical cancer screening in Canada	Cindy Gauvreau	Linden Oak

Abstract	Assigned presenter	Location
Cost-effectiveness of smoking cessation within an organized lung cancer screening program in Canada: implications for clinical intervention		
59 opportunities	Cindy Gauvreau	Linden Oak
Colorectal cancer detected and undetected in the colorectal cancer screening after a million invitations. The Basque Country programme		
60 (Spain)	Isabel Idigoras	Linden Oak
Defining screening exposure in case-control studies of FIT/FOBT: microsimulation modeling		
61 to inform study design	V. Paul Doria-Rose	Linden Oak
EFFECTIVENESS AND ECONOMIC EVALUATION FOR A NATIONAL REVIEW OF THE CERVICAL		
62 SCREENING PROGRAM IN AUSTRALIA	Kate Simms	Linden Oak
THE PROJECTED 50-YEAR GLOBAL BURDEN OF CERVICAL CANCER GIVEN ALTERNATE HPV VACCINATION AND CERVICAL SCREENING		
63 SCENARIOS: BY HUMAN DEVELOPMENT INDEX	Kate Simms	Linden Oak
Studies in Tailored Screening		Linden Oak
Are we ready for the challenge to implement personalised risk-based screening and primary		
64 prevention for breast cancer?	Daniëlle van der Waal	Linden Oak
Benefits and harms of addition of mammography to MRI in the High Risk Ontario Breast Screening		
65 Program		Linden Oak
Screening for colorectal cancer based on		
66 polygenic risk and family history	Iris Lansdorp-Vogelaar	Linden Oak
Predictive value of combined criteria to tailor breast cancer screening and new opportunities		
67 from circulating markers. The Andromeda study	Carlo Senore	Linden Oak
Evaluate the values of the asia pacific colorectal screening score and fecal immunochemical test for screening colorectal neoplasia in Chinese		
68 demographic population		Linden Oak
microRNA, gut microbiome and lifestyle related factors as indicators of different risk profiles for		
69 colorectal cancer and pre-invasive lesions	Carlo Senore	Linden Oak
Population-wide vs. Carrier-Probability-based BRCA1/2 Mutation Testing in the Washington		
70 Ashkenazi Study	Ana F. Best	Linden Oak
Associations of dense and fatty breast-tissue complexity with breast cancer risk: Preliminary evaluation using imaging biomarkers driven by		
71 breast morphology	Aimilia Gastouniotti	Linden Oak

Abstract	Assigned presenter	Location
Using risk models and electronic health records 72 to inform cervical cancer screening guidelines	Li Cheung	Linden Oak
Viral methylation, viral load and present ant 73 future risk of CIN2 and CIN3	Guglielmo Ronco	Linden Oak
Screening in women vaccinated against HPV: 74 results of a consensus conference	Guglielmo Ronco	Linden Oak
Cervical screening and management guidelines: 75 Achieving both precision and simplicity	Mark Schiffman	Linden Oak
Risk-based Adaptive Screening for Cervical 76 Cancer	Vidit Munshi	Linden Oak
Service Delivery in Cancer Screening: Studies in follow-up to abnormal s		Linden Oak
Women's perceptions of personalised risk-based breast cancer screening and primary prevention: 77 a systematic review	Daniëlle van der Waal	Linden Oak
Initial participation as a predictor for continuous participation in population based colorectal 78 cancer screening	Johannes Blom	Linden Oak
Reduced wait-times to colonoscopy after positive guaiac fecal occult blood test (gFOBT) in Ontario's diagnostic assessment programs (DAPs) 79 compared to usual care	Brownen McCurdy	Linden Oak
Assessment within the screening programme 80 presents an effective strategy	Vanessa Kääb-Sanyal	Linden Oak
Implications of False-Positives for Future Cancer 81 Screenings	Glen Taksler	Linden Oak
Colon Cancer Screening: Quality Improvement in the Delivery of Colonoscopy Service across 82 Canada	Paul Moayyedi	Linden Oak
Neoplasia yield with FIT two years after CTC 83 screening	Carlo Senore	Linden Oak
Perceived risk of colorectal cancer: A qualitative study about screening participants' reactions to a positive screening result and a referral to a 84 colonoscopy	Berit Andersen	Linden Oak
85 The second European Screening Report	Antonio Ponti	Linden Oak
Clinical pathways of diagnostic follow-up after a 86 positive screening mammogram	Danielle Durham	White Flint
Direct notification of cervical cytology results to women improves follow-up in Danish Cervical 87 Cancer Screening - a cluster-randomised trial	Berit Andersen	White Flint
CLINICAL PERFORMANCE OF DUAL-STAINED CYTOLOGY FOR TRIAGE OF HPV-POSITIVE WOMEN IN A PARTIALLY VACCINATED 88 POPULATION: DATA FROM THE COMPASS TRIAL	Jie-Bin Lew	White Flint

Abstract	Assigned presenter	Location
Reaching the Hard-to-reach Populations		White Flint
THE POTENTIAL FOR HPV SCREENING AMONG INDIGENOUS AND RURAL COMMUNITIES IN 89 CENTRAL AMERICA	Anna Gottschlich	White Flint
Socioeconomic differences in attendance and yield of the Dutch national colorectal screening 90 programme with faecal immunochemical testing.	Miriam van der Meulen, Esther Toes, Iris Lansdorp-Vogelaar, Monique van Leerdam	White Flint
Integrating cancer screening to reduce health 91 inequities, an Australian example	Kate Broun	White Flint
The CHOICE trial: a randomized, controlled effectiveness trial of HPV self-sampling for non- participants in an organized cervical cancer 92 screening program.	Mette Tranberg	White Flint
Cervical cancer screening for irregular migrant women in Turin: an organisational strategy to 93 involve a hard-to-reach subgroup of population	Nereo Segnan	White Flint
Exploring sociodemographic differences between participants and non-participants in an organized colorectal cancer screening program using 94 immunochemical Fecal Occult Blood Test	Mette Bach Larsen	White Flint
Barriers to immigrants participation in cervical cancer screening: an analysis of socio- demographic factors and of organisational 95 aspects	Antonio Ponti	White Flint
Feasibility testing of an opportunistic brief intervention in primary care for non-responders 96 to colorectal cancer screening	Christine Campbell	White Flint
Interventions to stimulate demand for cervical cancer screening services among hard-to-reach populations: a review of the literature and 97 potential applications for Zambia.	Meera Sarathy	White Flint
First Nations, Inuit and Métis Cancer Control: 98 Screening and Early Detection	Alice Muirhead	White Flint
Studies of Informed and Shared Decision Making		White Flint
Training primary care physicians to offer their patients faecal occult blood testing and colonoscopy for colorectal cancer screening on an equal basis: a pilot intervention with before- 99 after and parallel group surveys	Jean-Luc Bulliard	White Flint
Development of a colorectal cancer screening decision aid - Tailored to citizens with lower 100 educational attainment	Pernille Gabel	White Flint

Abstract	Assigned presenter	Location
101 Willingness and expectation for colorectal cancer screening in urban China: a multi-perspective survey	Hui-Yao Huang	White Flint
102 ANALYSIS OF VALIDATED TOOLS AND THEIR USE FOR MEASURING WOMEN'S SATISFACTION AND EXPERIENCE IN BREAST CANCER SCREENING PROGRAMMES. SYSTEMATIC REVIEW OF THE LITERATURE.	Silvia Deandrea	White Flint
103 Information preferences on the Cytosponge procedure for detecting Barrett's oesophagus: A qualitative study and design of an information leaflet	Judith Offman	White Flint
104 HOW HAS THE PARTICIPATION RATE INCREASED BY ROUND IN THE BASQUE COUNTRY COLORECTAL CANCER SCREENING (SPAIN)?	Isabel Portillo	White Flint
105 A web decision aid to support informed choices about screening for breast cancer	Eugenio Paci	White Flint
106 Recent Patterns in Shared-Decision Making for Prostate Specific Antigen Testing in the United States	Stacey Fedewa	White Flint
107 COMMUNICATION CHANNELS USED BY WOMEN INVITED TO A BREAST CANCER SCREENING PROGRAM IN CATALONIA, SPAIN	Carmen Vidal	White Flint
108 Enabling Informed Decisions for Women Considering Breast Cancer Screening: A Guidance Document for Screening Programs	Candice Anderson	White Flint
