DIRECTOR COURSE #2610

UNDERSTANDING THE ELECTRIC CO-OP BUSINESS

COURSE DESCRIPTION:

This course is designed to provide the electric distribution director with an understanding of the operational challenges electric cooperatives face. The course also presents a set of tools to facilitate due diligence in boardroom decision making on these issues.

KEY TOPICS:

- The policy and planning decisions boards make with regard to utility operations.
- Developing a culture of safety at your cooperative.
- How boards authorize resources consistent with the strategic plan, long-range financial.
- The board's role in the delivery of electricity includes how board provide direction.

CREDIT:

One credit toward NRECA's Credentialed Cooperative Director Certificate will be given upon the successful completion of this class.

NOTE:

This training is developed and delivered by NRECA.
