

WELDING

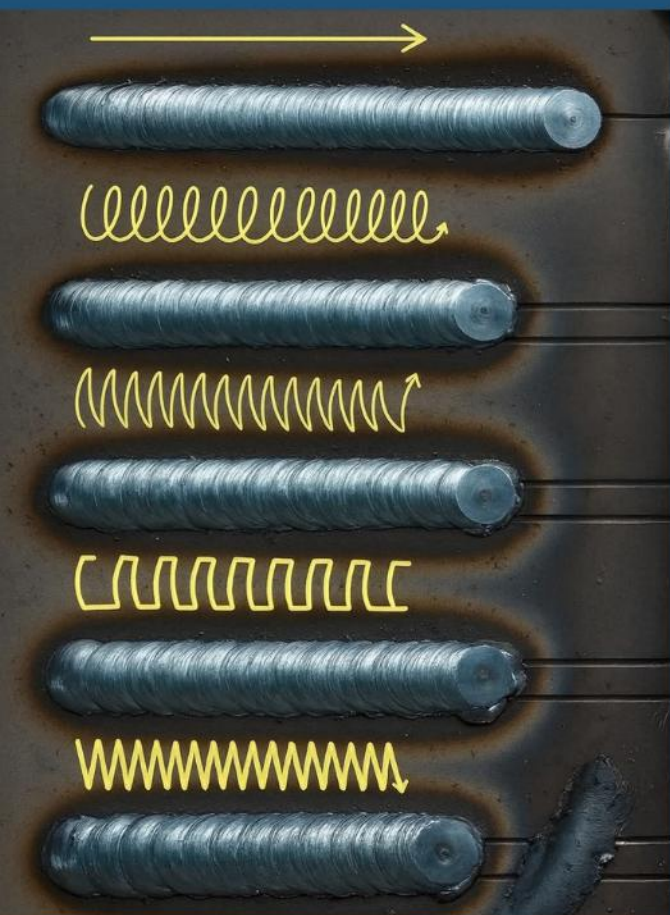

SMAW

GTAW

- **No External Gas Needed:** Self-shielding flux coating burns off to create protective gas and slag.
- **High portability:** Simple, lightweight setup ideal for outdoors and remote use, even in wind.
- **All-Position Versatility:** Effective for flat, horizontal, vertical, and overhead welding on carbon and alloy steels.

- **Process:** Uses a non-consumable tungsten electrode and a shielding gas to create the weld.
- **Precision:** Provides high-quality, precise welds, ideal for thin materials.
- **Metals:** Effective for welding stainless steel, aluminum, and exotic metals.

GNAM

- **Process:** Uses a continuous wire electrode and shielding gas to protect the weld.
- **Versatility:** Works with metals like steel, aluminum, and stainless steel.
- **Speed:** Offers fast welding suitable for various applications.

SAFETY PPE

Welding gloves
Heavy-duty leathers like cowhide

Approved
Welding helmet equipped with dark shade filter

Flame resistant
Welding jacket

Heavy duty
Cotton pants
