Comments from 2017 participants

“I thought this was an excellent program. The faculty was outstanding and obviously the best and the brightest in the ESI arena. Everyone worked hard to make us feel warm and welcome.”

“As I had anticipated, the Academy was comprehensive and allowed me to meet many of the goals I had set for myself. These goals included obtaining a better understanding of and comfort level with core concepts pertaining to ESI, including custodians, data sources, metadata, and search terms... This program was excellent and I will recommend it to the folks in my Office and elsewhere.”

“The conference far exceeded my expectations. I learned so much! I made a number of excellent professional connections. Thank you so very much to the instructors, judges and faculty for [their] hard work and dedication to this program.”
