- The views expressed in this presentation are those of the author and do not necessarily reflect the official policy or position of the Department of Defense, nor the U.S. Government.
- This continuing education activity is managed and accredited by the Defense Health Agency, J-7, Continuing Education Program Office (DHA, J-7, CEPO). DHA, J-7, CEPO and all accrediting organizations do not support or endorse any product or service mentioned in this activity.
- DHA, J-7, CEPO staff, as well as activity planners and reviewers have no relevant financial or non-financial interest to disclose.
- Commercial support was not received for this activity.

Learning Objectives

1. Explain why the Captain James A. Lovell FHCC federal EHR deployment is an important milestone.
2. Describe the benefits of the federal EHR.
3. Give examples of Lovell FHCC success stories and lessons learned.
4. Share ways Lovell FHCC prepared for the federal EHR deployment.
5. Discuss the path forward for the federal EHR.

Key Takeaways

- Lovell FHCC is the most integrated joint sharing site that serves both Department of Defense (DOD) and Department of Veterans Affairs (VA) patient populations.
- Lovell FHCC is a more complex site to deploy the federal EHR because it includes a hospital and joint DOD/VA operations.
- The federal EHR benefits patients and providers in many ways. At Lovell FHCC, clinicians no longer have to toggle between multiple systems.
- Lovell FHCC is a leading example for higher levels of interoperability nationwide and helps guide joint operations at other sites.
- Although this is the first time the FEHRM, DOD, and VA deployed the federal EHR together at the same site, it's just the beginning of collaborative efforts moving forward.

Lovell FHCC members holding up a go-live banner signed by individuals involved with the implementation of the federal EHR.
