- Surveys for emerging contaminants
- Planning and Design
- Construction of treatment or connection to a source without contaminants

How Does It Work?

Fundable List Schedules

What is the Pre-Application?

- ❑ A fillable form that collects data about your water system and your project.
- ❑ If you don't know an answer you can always put you don't know, and we will be alerted to work with you.
- ❑ Filling out the pre-application does not obligate you to anything.
- ❑ Once the pre-application is submitted, we will send you the list of supplemental documentation needed for the funding source you are interested in.

New Mexico Environment Department- Drinking Water State Revolving Fund (DWSRF) Pre-Application

A pre-application is used to determine eligibility. There is no obligation to move forward unless you choose to do so.

* Required

1. Public Water System Name

Enter your answer

2. Public Water System Number (NM35XXXXX)

Enter your answer

3. System Population (Please use Drinking Water Watch to find your system's population, <https://www.water.net.env.nm.gov/NMDWW/>)

The value must be a number

Supplemental Documentation

□ Drinking Water Project information

- ▣ Project description,
- ▣ Breakdown of costs,
- ▣ Categorical exclusion or environmental document,
- ▣ Verification of land ownership or agreements

□ Technical Capacity

- ▣ Operators,
- ▣ Compliance,

Help Us Help You

- The allocation from the EPA is based on submitted project interest.
 - The more projects we have on our lists the better our allocations.
- Once we have a pre-application we can assist you in getting everything you need to move forward to the fundable list.
- Not quite ready for funding?
 - Let us know in the pre-application what you need help with and we will work with you or help you find a technical assistance provider.
