Walter E. Lynch AIA, PLLC - Walter E. Lynch AIA, PLLC is a Washington, DC based Architectural Planning and Development Company actively involved with master planning and development for national corporations, individual owners, cities, counties and the Federal Government Agencies. The firm has successfully developed and managed high profile commercial, mixed-use, and transportation-oriented projects nationally and internationally, but with its main focus on the Washington, DC and Baltimore region. Typically Walter E. Lynch AIA, PLLC will oversee and coordinate all aspects of the development process on behalf of the owner.

Through its master planning and development, the company has created, redeveloped or repositioned a number of signature projects, including among others:

- Tysons International Plaza (Fairfax, Virginia)
- Fairfax Square (Fairfax, Virginia)
- Chrysler Building Re-Development (New York, New York)
- Kent Building Re-Development (New York, New York)
- Re-Design portions of Monumental Core (Washington, DC)
- FedEx Field (Prince George’s County, Maryland)
- Redskin Park (Loudon County, Virginia)
- Orlando Hospitality Center (Orlando, Florida)
- Pimlico Master Plan (Baltimore, Maryland)
- Laurel Park Master Plan (Laurel, Maryland)
- Route 1 Master Plan & Transit Oriented Development (Howard County, Maryland)
- “Smart Growth” Mixed Use Town Center Development at a Future Virginia Railway Express (VRE) Station (Gainesville, Virginia)

The founder of Walter E. Lynch AIA, PLLC is Walter E. Lynch, a Washington, DC architect and developer. Mr. Lynch has been very active nationally and in the Washington Metropolitan area on many signature commercial, mixed-use, sports, and entertainment projects. Early in his career Mr. Lynch worked for Vlastimil Koubeck Architects and worked on and oversaw various projects including master plans for Pentagon City, one of the World Bank buildings and Willard Hotel complex in Washington. Mr. Lynch started his own company in 1982 and designed and developed many properties for national and international clients. While continuing to run and build his own company, Mr. Lynch was hired by the late Jack Kent Cooke as Vice President of Jack Kent Cooke Inc. and the Washington Redskins to develop, construct and oversee a number of the Cooke property investments. Mr. Lynch was responsible for land acquisition, master planning and project management for the new Redskins Stadium (FedEx Field) in Prince Georges County. Mr. Lynch developed and built the 150-acre
Washington Redskins Park training facility in Loudoun County, Virginia, oversaw various master planning and improvements to the Chrysler Building in New York, spearheaded land acquisition and master planning of the Prince Georges Sports Complex, and oversaw the development of numerous properties throughout the country and Mexico. Mr. Lynch oversaw the Master Planning for the redevelopment of historic Pimlico racecourse, oversaw the master planning for the Transit-Oriented Development for Laurel Park, Maryland, and oversaw and designed a Transit Oriented Development community in Howard County, Maryland and Prince William County Virginia. Mr. Lynch has also designed signature property estates throughout the United States, British West Indies and Mexico.
