What is Tuberous Sclerosis Complex (TSC)?

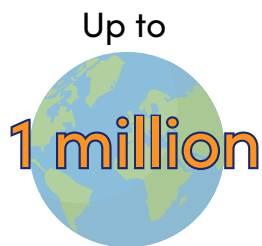

A Brief Overview

TSC causes tumors to grow in different organs and can impair their function, primarily the brain, heart, kidneys, skin and lungs.

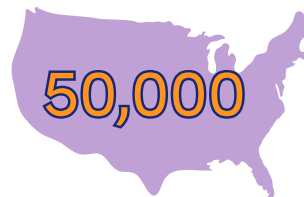

It is a complex disease that each individual experiences differently, and understanding it can provide hope, strength and empowerment throughout life's different stages.

How many people have TSC?

people worldwide have TSC.

Approximately

in the United States have TSC.

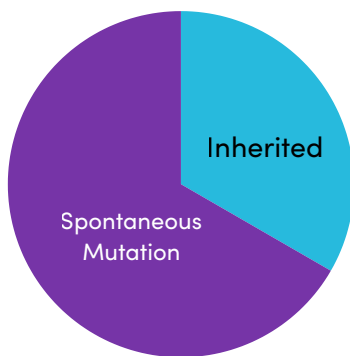

TSC affects

live births

How does it happen?

About one third of people with TSC inherit the disease, while the other two thirds result from a spontaneous mutation.

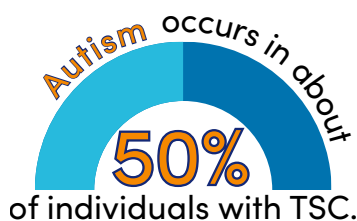

TSC occurs in all races, ethnic groups and genders.

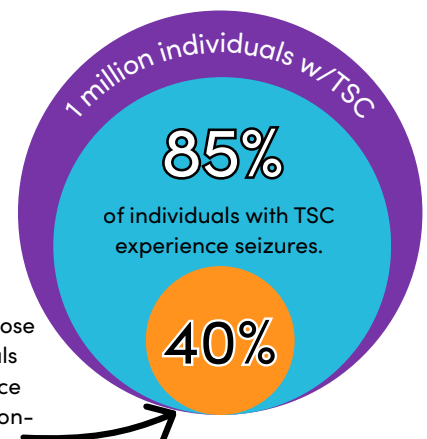

How can TSC affect daily life?

Most (**greater than 80%**) individuals with TSC will develop some form of **kidney disease** during their lifetime.

40% of those individuals experience medication-resistant seizures.

Currently, there is no cure for TSC.

About the TSC World Conference

The TSC Alliance is excited to present the 2026 TSC World Conference, July 30–August 1, 2026 in Aurora, CO, co-hosted by Tuberous Sclerosis Complex International (TSCi). The conference will bring together 1,000 participants from around the globe, including families and individuals with TSC, caregivers, healthcare professionals, researchers, a wide array of exhibitors and others.

The conference will be held July 30–August 1, 2026 at the Gaylord Rockies Resort & Convention Center in Aurora, CO.

Staged every four years, the TSC World Conferences are the largest and most prolific events the TSC Alliance hosts. Conference attendees will receive:

- The latest and most comprehensive TSC diagnosis, treatment and research information from the world's leading TSC clinicians and scientists
- Assistance through the myriad of educational, transitional, financial and emotional challenges of TSC
- The opportunity to meet hundreds of other families and individuals with TSC and make life-long connections
- A better understanding of the role the TSC Alliance and TSCi play in research, support and government advocacy both in the United States and around the world
- Access to a wide range of service providers
- Multiple networking opportunities and “down time” with others who share the common bond of TSC
- Q&A sessions with the experts at the end of Friday and Saturday's sessions
- Activities for the entire family
- Professionally staffed day camps for children with special needs, siblings and dependent adults

In an effort to recognize the needs and interests of the TSC community, the conference also includes a teen lounge, adult events, networking dinners and evening activities to help bring people together who share the common bond of TSC.

Pre-Conference Webinars

The TSC Alliance will host five webinars prior to the 2026 TSC World Conference from April 2026 through June 2026. These webinars will provide excellent base information for conference attendees and will allow room for more in-person topics. Dates and times are TBD.

TSC 101 for Newly Diagnosed Individuals or Families (The Importance of Building Your Care Team)

Consensus Guidelines: What You Need to Know

Seizure Types in TSC

Genetics Made Simple

mTOR Inhibitors: Past, Present and Future

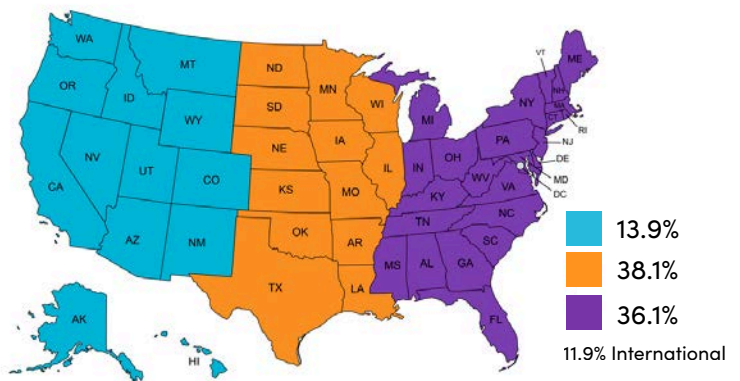

Attendee Profile

Because TSC affects each person differently, the 2026 TSC World Conference attracts many different constituencies, from adults and young adults with TSC to parents, caregivers and grandparents, to healthcare professionals and service providers.

At the 2022 World TSC Conference in Dallas, TX, 977 attendees (840 in-person, 157 virtually) hailed from 44 states and 23 countries.

The TSC Alliance anticipates 1,000 or more attendees at the Gaylord Rockies Resort & Convention Center in 2026.

Attendee Percentage by Region in 2022

The Gaylord Rockies Resort & Convention Center is located 6.3 miles from the Denver International Airport and has easy access to the Regional Transportation District (RTD) train which can provide transportation throughout the Denver metro area.

Conference Engagement Opportunities

The 2026 TSC World Conference will offer three keynote presentations and 42 sessions including workshops, large group lectures, specific topic presentations and discussion groups. This multipronged approach allows the TSC community to select engagement opportunities, regardless of their connection to TSC. The sessions cover topics such as medical challenges, behavioral management, life skills, community support and educational resources as well as financial considerations.

Keynote Sessions

- The State of TSC Around the World
- TSC Community-Driven Research and Global TAND Collaborations
- Empowering the TSC Community: Research, Treatment, and What Comes Next

General Sessions*

- Dysregulated Behaviors
- Kidney Tumors, Cysts, and Treatment Options
- Panel: Epilepsy Surgery and Brain Imaging
- Future Role of Genetics in Personalized Medicine
- Genetic Therapies: Hopes and Hurdles
- Take an Active Role in Government Advocacy: State and Federal
- Seizure Treatment

5 Different Session Types

- General Sessions That Apply Across the Lifespan
- Panels
- Workshops
- Specialty Topics
- Discussion Groups

*There are 45 total sessions during the conference.

All general sessions, panel presentations, large group lectures and specialty topic lectures will be recorded and available on the TSC Alliance website following the conference.

Networking Opportunities

On the first day of the conference, Thursday, July 30, we provide opportunities for individual segments of the TSC community to connect with each other.

Professionals

TSC Clinic Directors and Staff

Directors from 75 US-based and 14 international TSC clinics meet to share information on current clinical studies and the design of future clinics.

Families and Adults with TSC

Adults with TSC

Young Adults/Teens with TSC

Caregivers of Adults

Caregivers of Transitioning Young Adults

Caregivers of Young Children

Grandparents

Siblings

Social Media Community

Community Volunteers

Spanish Speaking

Resources

Exhibit Hall

The conference's Exhibit Hall highlights service providers and vendors who provide information about products and services most helpful to the TSC community. This prime venue helps companies and service providers showcase their offerings in an environment void of the normal day-to-day pressures providing greater exposure and focus time for specific product and service lines.

TSC Research Room

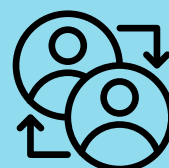

The TSC Alliance is sponsoring a research room where TSC community members can explore ways to participate in clinical research, including the TSC Alliance Biosample Repository and Natural History Database. With participant consent, staff from a mobile phlebotomy company will be on site to collect blood samples.

What Makes Us Different

The TSC Alliance is a model nonprofit in the rare disease research and support sector. Here are some ways we have demonstrated our unique ability to reach our constituents and impact their quality of life.

Facilitated 3,473 peer-to-peer connections in 2024, helping reduce the stress and anxiety of a TSC diagnosis

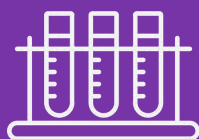

Raised \$21.8 million from more than 1,800 donors and community members since launching the 50 Forward Fund, propelling TSC research forward

1.1 billion media impressions in 2024, dramatically increasing the visibility of TSC

\$121 million appropriated for the Tuberous Sclerosis Complex Research Program at the Congressionally Directed Medical Research Program at the Department of Defense since 2002

Our volunteer base has grown to over 2,000 individuals, highlighting our community-building expertise

Collected more than 3,000 biosamples for the Natural History Database and Biosample Repository from 2,878 participants

Numbers as of August 2025

About the TSC Alliance

The TSC Alliance is an internationally recognized nonprofit that improves quality of life for everyone affected by tuberous sclerosis complex by catalyzing new treatments, driving research toward a cure and expanding access to lifelong support.

TSC is a rare genetic disease that causes tumors to grow in different organs, from the brain and heart to the lungs and kidneys to the skin and eyes. Nearly one million people worldwide have TSC. Some live independently with few symptoms while others require complex care.

We are a source of hope and connection for all affected by TSC. We drive research, increase care quality and access and advocate with and for people affected by the disease. Through our collaboration and partnerships, we've advanced FDA-approved treatments and created support systems around the world so no one has to navigate TSC alone.

The TSC community is our strongest ally. With the power of families and the support of donors, volunteers, researchers, educators, industry partners and more, we can create a future where everyone with TSC can realize their full potential, no matter how complex their journeys are to get there.

About Tuberous Sclerosis Complex International (TSCi)

TSCi is a consortium of organizations that support individuals with TSC around the world, serving as a forum to share information, exchange ideas and methods, co-fund research projects, and empower individuals with TSC and their families, caregivers, educators and health care providers. The resulting connections have enabled TSCi to become a stronger, more empowered group of organizations that influences initiatives that benefit the global TSC community. TSCi currently consists of well-defined organizations from 37 countries on six continents.

TSCi goals and objectives include:

- To increase the knowledge of tuberous sclerosis complex throughout the world
- To disseminate internationally recognized diagnostic criteria, surveillance and treatment guidelines
- To stimulate, coordinate and originate research on tuberous sclerosis complex
- To interest statutory international organizations in the welfare of those with tuberous sclerosis complex and their families
- To support national tuberous sclerosis complex associations and organizations in their work
- To initiate the realization of new tuberous sclerosis complex associations in additional countries
- To exchange information of mutual interest between tuberous sclerosis complex associations
- To raise funds to support the goals and objectives of Tuberous Sclerosis Complex International (TSCi)

Sponsorship Levels and Benefits

Supporting the TSC World Conference provides you with maximum exposure to the TSC community to showcase products and/or services, increase visibility among care providers and reach the global TSC community directly. Your participation demonstrates you are a recognized in creating a future where everyone affected by tuberous sclerosis complex can live their fullest lives.

There will be 45 sessions during the conference, a majority of which will be recorded and posted on the TSC Alliance website at the conclusion of the conference, which boasts 24,000 monthly unique visitors on average. Out of respect for the community's privacy, the smaller workshops and discussion group sessions will not be recorded. The conference mobile app highlighting the complete agenda, speaker biographies, meeting room maps and information about the event's sponsors and exhibitors offers sponsors a unique opportunity to highlight resources and to drive traffic to your exhibit booth and website, increasing visibility within the TSC community.
