Cloud Deployment
How to deploy enterprise BI projects in 30 minutes

Shawn Thompson
VP, Product Management
Copyright and Safe Harbor Notice

This presentation may include statements that constitute “forward-looking statements” for purposes of the safe harbor provisions under the Private Securities Litigation Reform Act of 1995, including descriptions of technology and product features that are under development and estimates of future business prospects. Forward-looking statements inherently involve risks and uncertainties that could cause actual results of MicroStrategy Incorporated and its subsidiaries (collectively, the “Company”) to differ materially from the forward-looking statements.

Factors that could contribute to such differences include: the Company’s ability to meet product development goals while aligning costs with anticipated revenues; the Company’s ability to develop, market and deliver on a timely and cost-effective basis new or enhanced offerings that respond to technological change or new customer requirements; the extent and timing of market acceptance of the Company’s new offerings; continued acceptance of the Company’s other products in the marketplace; the timing of significant orders; competitive factors; general economic conditions; and other risks detailed in the Company’s Form 10-K for the year ended December 31, 2016 and other periodic reports filed with the Securities and Exchange Commission. By making these forward-looking statements, the Company undertakes no obligation to update these statements for revisions or changes after the date of this presentation.
This session will cover

• An overview of the MicroStrategy on AWS provisioning tool
• How to deploy and manage a fully configured BI environment in less than 30 minutes
Let’s provision our environment and start the clock!
**MicroStrategy on AWS**

The latest MicroStrategy full-featured BI solution leveraging the latest from AWS

- **Enjoy single click Deployments. No Cloud expertise**
- **Tailored to customer needs. Team, Department and Enterprise Editions**
- **Fully configured, ready to use BI enterprise platform**
- **Scale from 1 to 100,000 users in minutes**
- **Get your MicroStrategy environment anywhere**
- **Create unlimited workflows with powerful APIs**
Tailor to your specific needs
