

Aloha!

It is with great excitement that we invite you to the Grand Wailea Resort on the beautiful island of Maui for Aerospace 2026. As we all know, Maui has endured profound challenges in the wake of the devastating 2023 wildfires, yet the spirit of this island continues to shine. Their rebuilding efforts remind us of the resilience of communities, the importance of honoring the past, and the power of partnerships and collaboration in shaping a brighter future.

This summer's gathering will lean into the spirit of the island and serve as more than our annual conference and networking event. Aerospace 2026 will **reflect** on the current state of our industry, **renew** our passion for the cooperative model, and **reimagine** our collective vision for tomorrow.

As we come together in July, we embrace the opportunity to reimagine what it means to lead and evolve in a rapidly changing financial ecosystem. We can evolve the credit union industry to reflect the needs of tomorrow: continuing to transform lives, inspire loyalty, and create lasting impact.

Aerospace 2026 is a call to action...

- To invest in resources that strengthen our foundations.
- To modernize so we remain relevant in an ever-shifting marketplace.
- To embrace transformation as a pathway to growth.
- To forge partnerships that amplify our collective success.

Together, we will explore how to honor traditions while boldly moving into the future. Just as Maui rebuilds with care and vision, so too must we invest in innovation, collaboration, and evolution.

We invite you, along with your Board Directors, a key senior executive, members of your Supervisory Committees, and families of each to immerse yourself in the conversations, connections, and opportunities that await at the Grand Wailea. Mahalo for joining us on this journey.

Warm regards -

Dave Sweiderk

CEO, SECU

Gordon Howe

Former UNIFY CEO/Chief Strategy Officer
