

NAPLES GRANDE BEACH RESORT

COMMITTED TO A SUSTAINABLE FUTURE

At Naples Grande Beach Resort, we're committed to playing our part in a sustainable future in the community where our guests and colleagues live, work and play.

Situated in the middle of a protected mangrove estuary and waterfront, Naples Grande emphasizes the pristine beauty of our surroundings. In addition to our Green Lodging Florida Two Palm designation, one of the first sustainable touches you'll notice on-property is our boardwalk composed of recycled milk jugs – the perfect place for an evening stroll, or our towel and linen reuse program that saves 6 million gallons of water annually. Collier County is proud to be an official Blue Zones Worksite®.

HOTEL-WIDE INITIATIVES

- Green Lodging Florida Two Palm designated resort
- Recycling of waste, batteries, electronics and landscaping
- Eco-certified cleaning products and laundry detergent
- Tesla Car charging stations in parking garage
- Reclaimed water for irrigation of our 23-acre property
- Saving more than 6 million gallons of water through a resort-wide towel and linen reuse program
- Stewardship of the resort's three miles of beachfront habitat including hosting weekly beach cleanups
- Large machinery such as air handlers and pumps equipped with variable speed drive
- High-efficiency guestroom HVAC Smart Systems
- Fleet of electric-powered trams for beach transportation - reducing emissions
- Digital in-room information of hotel services and amenities
- Complimentary bikes for guests to visit nearby shops and restaurants
- Use of biodegradable paper straws and wooden stir sticks
- On-property herb garden and use of locally sourced ingredients in F&B and banquets

MEETING & EVENTS INITIATIVES

- LEED certified high-efficiency lighting
- Conveniently located filtered water dispensers
- Use of Icelandic Water - the world's first CarbonNeutral® certified bottled water
- Digital reader-board signage for all function rooms
