

Medical Education Program – Vet Systems

**Comprehensive Elbow and Shoulder Forum:
Best current practices and new cutting-edge technology.**

April 29 - May 1, 2027

ArthroLab, Naples FL.

Faculty:

Ian Holsworth, BVSc, MANZCVS, DACVS-SA

Jessica Leasure, BVMS, MRCVS, DACVS-SA

Sean Murphy, DVM, DACVS-SA

Kurt Schulz, DVM, MS, DACVS

Day 1:

7:00 am Breakfast available at Innovation®

7:40 am Registration

7:55 am Welcome – *Ashley Bouhebert Medical Education Operations Manager – Vet Systems*

Session I: The Shelbow Challenge: Algorithm of Forelimb Lameness Assessment

8:10 am How to Approach Forelimb Lameness – *Kurt Schulz*

Session II: Elbow Arthroscopy:

8:30 am Elbow Exam and Imaging Considerations in Forelimb Lameness – *Sean Murphy*

8:50 am Arthroscopic Evaluation and Treatment of The Elbow: Tips and Tricks – *Jess*

9:10 am UAP Fixation: Arthroscopic Evaluation and Repair with Removal vs Re-attachment Case– *Ian Holsworth*

9:25 am Elbow OCD case: Flap Removal vs Micro-Drilling vs Resurfacing Case – *Jess Leasure*

9:40 am Lab announcements and scrub change

Faculty transition to the lab to receive and welcome participants

9:55 am **ArthroLab™ Experience: Elbow Arthroscopy**

All faculty to support ArthroLab™ experience

- Joint assessment and exploration- standard arthroscopy
- Coronoid treatment
- NanoNeedle™ arthroscopy
- UAP reattachment with cannulated and standard screws, 3.5 and 4.5 screws, AR-8945-55FT screws - Quickfix + c-guide + FT screws available also
- OCD debridement, micro-drilling and SynACART (Available)
- Incongruity assessment.

12:00 pm Lunch

Session III: Shoulder Arthroscopy

12:45 pm Shoulder Exam and Imaging Considerations in Forelimb Lameness - *Sean Murphy*

1:05 pm Arthroscopic Evaluation and Treatment of The Shoulder: Tips and Tricks – *Jess Leasure*

1:25 pm Supraglenoid Tubercle Fracture Repair - *Ian Holsworth*

Medical Education Program – Vet Systems

Comprehensive Elbow and Shoulder Forum: Best current practices and new cutting-edge technology.

April 29 - May 1, 2027

ArthroLab, Naples FL.

- 1:40 pm Lab Announcements
Faculty transition to the lab to receive and welcome participants
- 1:45 pm **ArthroLab™ Experience:** Shoulder Arthroscopy
Optional: Arthroscopic Biceps Tenodesis- Re-live: Arthroscopic Biceps Tenodesis: Loop and Tack Technique – *Featuring Peter Lotsikas* This will play in lecture room after lecture.
Tablets and Equipment available in the lab.
All faculty to support ArthroLab™ experience
- Needle arthroscopy of the shoulder
 - Surgical arthroscopy of the shoulder
 - Create 3 ports
 - Create OCD and perform debridement, forage/ microfracture
 - Biceps Tenodesis: Loop and Tack technique
 - Biceps tenotomy- only one side if doing biceps tenodesis.
 - Continue on Ulnar osteotomy or screw placement for IOHC
 - Cannulates screws to **Continue on UAP reattachment or/ and standard screws, 3.5 and 4.5 screws, washers, AR-8945-55FT screws**
 - Supraglenoid Tubercle Fractures
- 4:00 pm Reception - INC - classroom
- 4:15 pm **Ortholine Update** – *Ian Holsworth*
- 4:40 pm Faculty ShowCASE
Articular and Periarticular Fractures of the Elbow Case Series - *Sean Murphy*
Case: IOHC: Screw Fixation vs Ulnar Osteotomy Case – *Jess Leasure*
Case: Proximal Ulnar Fractures - *Kurt Schulz*
- 6:15 pm Adjourn

Day 2

- 7:00 am Breakfast Available at Innovation®
- 7:50 am MedEd Opening Comments.

Session IV: Articular and Periarticular Fractures of The Elbow and Beyond

- 8:00 am Percutaneous, Fluoro-Assisted, and Open Approaches to Elbow – *Sean*
- 8:25 am Surgical Management of Radial Fractures – *Ian Holsworth*
- 8:35 am Case: Collateral Ligament of The Elbow – *Kurt Schulz*
- 8:45 am Lab announcements
Faculty transition to the lab to receive and welcome participants
