SPONSORSHIP PACKAGE

INVITATION

Sponsorship options are available for the
2026 Public Works Professional Development Week.

IPWEA WA's premier event, the 2026 Public Works Professional Development Week will be held from the **Monday 23 - Friday 27 November 2026 at The Rise in Maylands**. This popular event is firmly entrenched in the annual calendar of many public works professionals and provides staff with an excellent opportunity to attend a wide range of topical courses in a consolidated manner.

Participants usually come from supervisory, technical, operations and administration areas within public works, and as always, special efforts are made to include presentations of interest that meet the needs of all individuals working in various areas of public works and services, including local government, contracting and consulting.

The Public Works Professional Development Week is billed as the event for public works staff who do not get an opportunity to attend our State or Australasian Conferences, and is specially designed to enable participants to register for blocks of sessions that are of particular interest to them.

IPWEA WA will be running the PD Week in a hybrid format, meaning that delegates will be able to attend in both a face to face format, or online, allowing you to reach an even larger audience than before.

This event is too good to miss and, as with all IPWEA WA events, you can be assured of a successful and rewarding experience for all participants and a great marketing opportunity for your organisation.

I look forward to meeting you during the Public Works Professional Development Week.

Please feel free to contact our Office & Events Manager, Cathy Higgs, on **08 6361 1117** or **events@ipwea.asn.au** to discuss the options available, or if you require any further information.

Tanvir Asgar
Education and Training Chair
