Where is your organization on its adoption of AI?

3 Exploring and learning about it

14 Experimenting with small pilots or proofs of concept

7 We have a few AI use cases in production

12 AI is becoming part of our broader business strategy

0 It is embedded across multiple functions/processes

1 Not sure / I don't have visibility into our AI strategy

AI Adoption in SAP Landscapes

Building foundational knowledge

39%

Active piloting or experimentation

41%

Planning Implementation

37%

Actively deploying in select areas

24%

Enterprise-scale rollout

10%

0

How prepared is your organization to manage AI agents acting on business data (like SAP)?

4 Not prepared at all

17 Early conversations, no clear approach

7 Defined guidelines for AI use (limited scope)

6 Actively building governance (access, audit, controls)

2 Confident in our governance approach

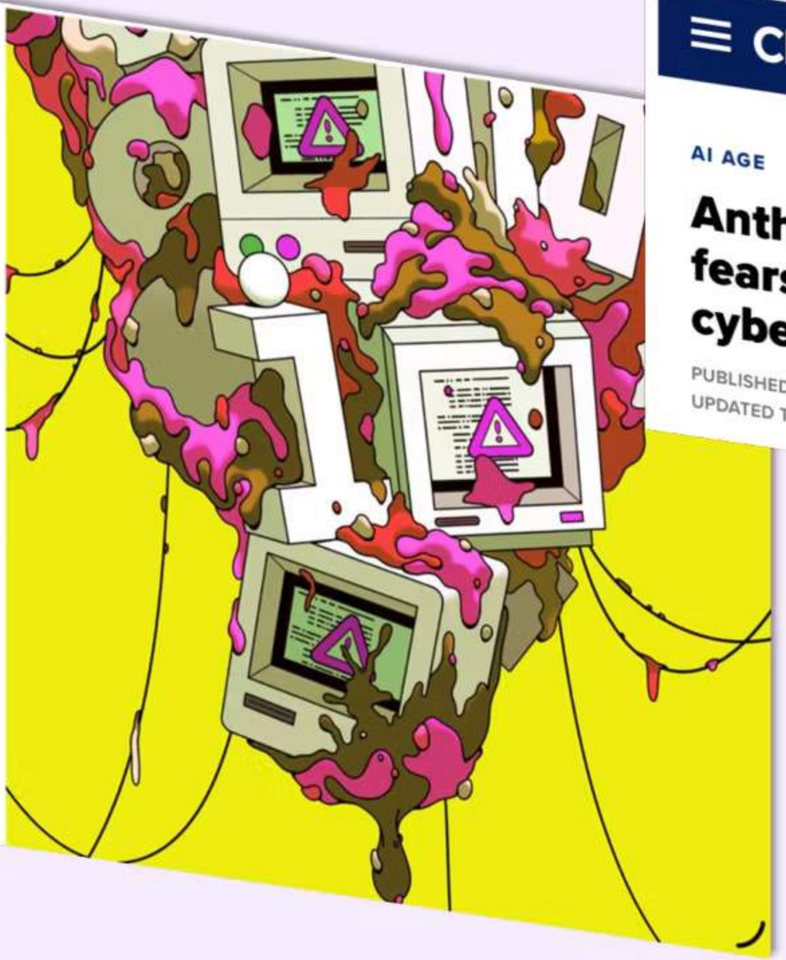

Congratulations AI! You Won.

Now Fix the Mess. (SAP Professionals: Ready to Go.)
