

A close-up photograph of a hand clicking a black computer mouse. The mouse has a glowing blue light bar on its side. The background is blurred, showing a desk and some cables. A semi-transparent white rectangular box is overlaid on the image, containing the text 'MOCK EXAM' in a bold, black, sans-serif font.

MOCK EXAM

Before you begin you will need...

- The computer that you'll use to take the NYS Orals Certification Exam
 - [Minimum Requirements](#)
 - Working Webcam & Microphone
 - Administrator Access
 - Firefox or Chrome Browser
- Strong Internet Connection
- Login Credentials
 - Institution's ID: SUNYOPT
 - Student ID:
 - Password

**ONLY DOWNLOAD & TAKE THE MOCK EXAM ON
THE DEVICE YOU WILL USE TO TAKE THE EXAMS ON.**

PRIOR TO THE EXAM:

- Prepare yourself for the exam (use the restroom, get water, etc.).
- **You WILL be asked to show your work area on camera.**
- **Make sure that the lighting in the room is bright, so that the camera can capture a clear image of you (every time you take an exam):**
 - DO NOT cover your camera/microphone during the exam.
 - Your hair should be pushed back behind your ears
 - **For best results please remove your glasses for the baseline photo.** You can wear glasses during the exam – please make sure that your entire face and ears are visible.
 - You are not allowed to have headphones of any kind.
- **Once you have started the exam, you should not walk away or move out of view from the camera as the exam is being monitored.**

ExamID Consent to Collect

You are free to decline consent to provide Biometric Data and recordings to ExamSoft. However, your Institution may require you to consent to the collection of this data to take the exam using ExamSoft software. We do not have any control over your Institution's applicable policy.

The ExamSoft software will prompt you to grant us permission to use your device's camera and microphone to take your photo and to create an audio and video recording of you while taking your exam. The photo and the associated scan of your face are compared to other photos you provide us and scans of those photos. For the video and audio proctoring services, an alert is displayed at the top of the screen during the exam to let you know that you are being recorded. The recordings are automatically analyzed to compare your activity during the exam against parameters established for the examination. For example, the analysis may detect patterns of behavior which might suggest that an exam-taker is viewing impermissible material or improperly communicating with another person. We use third party service providers to help provide the photo and recording analysis services, but they have no other rights to access or use your Biometric Data, recordings, or other personal data for other purposes.

We share all photos, scans, and recordings, as well as a list of potential anomalies, with your Institution, but we do not make any determinations about them. Your Institution will determine whether their requirements have been met.

We may use your Biometric Data, photos, the recordings, and other personal data to help us better understand how ExamSoft services perform. We may anonymize, aggregate and/or de-identify the Biometric Data, photos, recordings, or other personal data to use for legally permissible purposes, including, but not limited to, improving our software and services, research, product development, or to offer your Institution customized service suggestions.

We will retain your Biometric Data, photos, and the video and audio recordings for up to one year after your last interaction with the ExamSoft software with this Institution, or as otherwise required by law, after which we will delete the data. However, at any time your Institution may request that we delete your Biometric Data, photos, recordings, or other personal data, and we will do so as permitted by law. Please note that your Institution may maintain your Biometric Data, photos, or the video or audio recordings for a longer period, so if you have questions on your Institution's data retention policies, please contact your Institution.

By checking the box below, you acknowledge that you have read this notice describing the type of Biometric Data, recordings, and photos collected, how that information is collected and used, and how long it is retained. You consent to these practices, and also consent to ExamSoft providing this data to your Institution or to ExamSoft's third-party service providers as needed to provide the services. Please review our <https://examsoft.com/privacy-policy> for more information on our privacy practices.

☐ I consent for ExamSoft to collect, use, retain, and share my Biometric Data, photos, and video and audio recordings as described above.

Click: Start Exam

The first question will ask you to show your workspace using your camera.

Q1. Camera Scan: Required for ALL EXAMS

You will have 1 Minute to do this step, so take your time!

This step ensures your workspace is clear of notes, papers, books, phones, etc.

First: Click on the [•MONITORING] icon (at the top/middle of the screen) to see what is being recorded.

Second: Pick up and slowly tilt/pan your webcam/laptop camera to show your workspace:

behind, under, around and above the computer (and keyboard if using a desktop computer) and the desk area.

If you are using a desktop computer with a built-in camera, you MUST use the mirror to show the area around your computer. Be sure that you can see video being captured while doing this to ensure that the workspace is being recorded properly.

Third: Once you have successfully showed your workspace select YES as your answer choice and move on to the next item.

2

You have 1 Minute to do this step, so take your time!

- This step ensures your workspace is clear of notes, papers, books, phones, etc.

3

First: Click on the **[•MONITORING]** icon (at the top/middle of the screen) to see what is being recorded by the camera.

Second: **Pick up and slowly tilt/pan your webcam/laptop camera to show your workspace:** behind, under, around and above the computer (and keyboard if using a desktop computer) and the desk area.

- If you are using a desktop computer with a built-in camera, you MUST use the mirror to show the area around your computer.** Be sure that you can see the “Monitoring” screen while doing this to ensure that the workspace is being recorded properly.

Third: Once you have successfully showed your workspace click on YES as your answer choice and move on to the next item.

Answers A - B

A No 

B Yes 

The second question will ask you to complete a scan of your workspace.

Q2. Mirror Scan: Required for ALL EXAMS

You also have 1 Minute to do this step, so take your time!

This step ensures your computer screen and workspace is clear of notes, etc.

First: Click on the **[•MONITORING]** icon again to see what is being recorded.

Second: Using the handheld mirror, face it towards the camera and slowly tilt/pan/move the mirror around to show your computer screen and the surrounding workspace: behind, under, around and above the computer (and keyboard if using a desktop computer) and the desk area. Make sure that the mirror is clearly reflecting the workspace to your webcam and all areas are being recorded - on the **[•MONITORING]** screen.

Third: Once you have successfully showed your workspace using the mirror, click on YES as your answer choice and move on to the next item.

The screenshot shows the Exemplify interface with a dark blue header bar. The header contains the Exemplify logo, the text "PREVIEW_Mock Exam - NYS Orals Bill", a red-bordered box containing "TIME REMAINING 00:01:19", a dropdown menu for "EXAM CONTROLS", and a "TOOL KIT" button with a three-dot menu icon. Below the header, the interface is split into two main sections: "TOOLS" and "NOTES". The "TOOLS" section contains a "TIMERS" section with a clock icon and "00:01:19 Time Remaining", an "Add Alarm" button, an "ADJUST TEXT SIZE" section with a slider and "Aa" labels, and an "EXAM DOCUMENTS" section with links to "Exam Attachments" and "Exam Notices", both with a blue circle containing the number "1". At the bottom of the "TOOLS" section is a "CLOSE TOOLKIT" button. A blue-bordered box on the left contains the text "Available Tools: Timer & Alarm Adjust Text Size", with a blue bracket pointing to the "TIMERS", "Add Alarm", and "ADJUST TEXT SIZE" sections. A red-bordered box contains the text "Amount of Time Remaining", with a red arrow pointing to the "TIME REMAINING" box in the header. At the bottom right of the interface is a blue "Finish" button.

Exam Question

Selected Answers will have a blue outline around it and a blue check mark. The selected answer will also display under the question.

Answer Choices

Number of Questions Answered; Remaining

The screenshot shows the Exemplify app interface. At the top, there's a dark blue header with the 'Exemplify' logo and a 'DISMISS ALARM' button. Below the header, a sidebar on the left shows three question numbers (1, 2, 3) in blue circles. The main area displays 'Question 3' with a dropdown arrow, a 'FLAG QUESTION' button, and icons for a yellow highlighter and a notepad. The question text is 'What do you call a fish with no eyes?'. Below the question, it says 'Currently Selected : A'. The answer choices are listed in a light blue box with a green border: 'A Fishually impaired.' (with a blue checkmark and a blue outline), 'B Cat', 'C Dog', and 'D Turtle'. To the right of each choice is a 'Strike Out' button (a circle with a diagonal line). A red arrow points to the selected answer 'A'. A green arrow points to the answer choices list. A purple arrow points to the 'Strike Out' button for choice 'D'. At the bottom, a light blue footer shows '3 OF 3 QUESTIONS' and 'VERSION 2W.8.0'.
