

Innovation Zone Confirmation

Thank you for registering to present an Innovation Zone session during this year's Society of American Foresters Virtual Convention. Innovation Zones are a feature of the Virtual Exhibit Hall, allowing exhibitors to make live presentations, conduct product demonstrations, and engage in fun activities while connecting with attendees and potential clients. Zones are designed to be informal, and exhibitors are encouraged to make their presentations interactive and engaging.

The Innovation Zone schedule will be announced in late September. These are 30 minute sessions that will be conducted within the conference platform. You have the option to pre-record your session and **submit it to us as an MP4 file by Oct 9th**, or you can conduct your session live. The sessions will be conducted using Zoom meeting rooms, so once your presentation has ended, you can remain in the Zoom meeting room for Q&A with attendees (30 minute total session time including Q&A).

- I plan to pre-record my Innovation Zone presentation and will upload it into my assigned google drive folder by Friday October 9th

- I plan to present live at the scheduled time of my Innovation Zone session

Your Innovation Zone session will appear on the conference schedule and attendees will just have to click on this schedule item to watch your presentation. Once your presentation is completed, the recorded video will be uploaded into your virtual exhibit booth so that attendees may view it on demand. We will be sure to send you a copy as well.

In order to promote your Innovation Zone session, we need you to provide the following information by **Friday September 18th** .

Company Name: _____

Presentation Title: _____

Please provide a short description of your presentation to include in the conference schedule:

If you have any questions or concerns, please email karen@delaneymeetingevent.com
