

Do you have a topic idea that you would like to hear? Are you interested in being a speaker for a South Carolina Midlands Chapter ISACA event? Or do you know someone who would be an excellent speaker?

All ideas will be considered!

If you have a topic idea or you or someone you know is interested in speaking, please send an email to certification@scisaca.org.

Let's Get Certified!

Why certify? ISACA certifications are globally accepted and recognized, and they give you the credibility you need on your quest for career advancement. Certification proves to employers that you have what it takes to add value to their enterprise. In fact, recent independent studies have consistently rated ISACA's designations among the highest impactful certifications that an IT professional can earn. If you want to boost your earning potential as well as enhance your professional credibility and recognition, click on one of the pictures below to begin your path to certification.

CTRL+Click on an image above for the **CISA**, **CRISC**, **CISM**, **CGEIT**, **CDPSE**, **ITCA**, or **CET** certification. You can now choose to schedule and take your exam from the comfort and safety of your home, or anywhere, at a date and time that is convenient for you! If your testing center remains open, you are welcome to take your exam in person if you prefer. Either way, there is no additional cost to take your exam online.

Member Spotlight

Not a Member?

By joining ISACA, you'll gain access to countless tools, techniques, guidelines, webinars, and periodicals to keep you up to date in our ever-changing profession. Oh, did I mention you'll save money by joining?! If discounts to upcoming training and exam prep materials doesn't pique your interest, how about 70+ hours of FREE CPE's, FREE audit programs and so much more?!

Visit the [South Carolina Midlands Chapter of ISACA](#) website and follow the [Join ISACA](#) link for more information on becoming a member of our growing community.

Be sure to visit the [engage](#) site for the SC Midlands Chapter of ISACA!

Reading Nook

Education doesn't have to be expensive — there are plenty of free courses to brush up on your IT skills that require

nothing more than an internet connection and a laptop or smartphone. The following twelve online education providers offer free programs and courses on nearly any technical domain. It's a great way to dip your toe into a new topic with limited commitment, or to stay on top of developing trends and technologies in your industry.

Whether you're interested in changing the direction of your career, just starting out, trying to beef up your resume or just looking to stay on top of technology trends, any of these twelve online education providers can help you without breaking the bank.

Click [here](#) to read more about 12 free online education sites for IT skills.

Technology Anthology

Visit the [Technology Anthology](#) section of the [SC Midlands Chapter](#) of ISACA's website for a list of archived chapter newsletters.
