Conference on

Investment Opportunities in Indian Infrastructure

February 17, 2027 | Singapore

Hosted by: INDIA INFRASTRUCTURE FORUM

PARTNERING
FOR A STRONGER
INFRASTRUCTURE
TOMORROW

MISSION

India and Singapore share one of the most robust economic partnerships in Asia. Singapore has been one of the leading sources of FDI into India (25 per cent), with cumulative inflows of approximately $200 billion as of 2025-26.

Several Singaporean firms are investing heavily in India's clean energy transition, including wind, solar, and energy storage projects. Additionally, there have been specific collaborations in green shipping corridors and maritime decarbonisation. Recent years have seen a significant surge in Singapore's interest in sectors including roads, ports, aviation, renewable energy, telecommunications, data centres, and industrial and logistics infrastructure.

The Government of Singapore Investment Corporation (GIC) continues to make significant investments. In July 2026, GIC partnered with TPG to acquire Aseem Infrastructure Finance, and is slated to invest in SBI Funds Management's upcoming $1.3 billion IPO alongside ADIA. Further, GIC has expanded its footprint via a joint venture with DLF, posting double-digit rental growth, underscoring the premiumisation of India's Grade-A office market.

State governments are increasingly partnering with Singaporean entities. The Maharashtra government has collaborated with Surbana Jurong to plan and develop urban infrastructure, smart city projects, and new industrial corridors, while the Uttar Pradesh government has recently secured three memorandums of understanding worth Rs 66.5 billion with the Universal Success Group for investments ingroup housing,a logistics park and a hyperscale data centre.

Temasek has been actively pursuing investment opportunities in India. As of July 2026, it has announcedplans to invest up to $5 billion every year in India. Additionally, CapitaLand Investment has become heavily involved in developing business parks, logistics hubs, and data centres across major Indian cities.

India's investment landscape has evolved favourably for foreign investors. The current FDI policy permits 100 per cent foreign investment under the automatic route in most infrastructure sectors. Investors are also attracted to the strong growth prospects of the Indian economy.

India's ambitious target of achieving 500 GW renewable energy capacity by 2030 offers sizeable investment opportunities in solar, wind, and clean energy projects. Green hydrogen, a promising solution for decarbonisation, presents long-term investment opportunities. Sectors like roads, highways, logistics, and ports are also developing at a rapid pace and are attracting significant interest from Singaporean investors.

India also has ambitious plans to ramp up its digital, logistics and multimodal infrastructure. Segments like ESG and clean energy, data centres, AI governance,and warehousing offer promising investment opportunities.

There are many investment avenues in infrastructure sectors – InvITs, equity funds, infrastructure bonds, greenfield and brownfield projects, operational assets, developer firms, supplier businesses, etc. The Indian market is currently offering high-quality assets with realistic valuations, supported by conducive policies and promising returns.

The mission of this conference is to provide an independent, fact-based perspective on both the opportunities and challenges associated with investing in India's infrastructure. It will provide a platform for existing investors to share their experience and for future investors to discuss their expectations and concerns. The conference will also examine sector-specific opportunities and discuss the fiscal/regulatory regime.

TARGET AUDIENCE

The conference is primarily targeted at:

- Investors in Singapore and the APAC region
- Institutional Investors
- Sovereign Wealth Funds (SWFs)
- Insurance Companies
- Asset Managers & Fund Managers
- Private Equity & Infrastructure Funds
- Venture Capital & Growth Equity
- Banks & Credit Providers
- Development & Multilateral Banks
- REITs & Infrastructure Trusts
- Family Offices & Ultra-HNW Investors
- Corporate & Strategic Investors
- Government & Public-Sector Investors
- Corporate Treasuries
- Infrastructure developers from both countries

PROGRAMME

Needs and Requirements: Opportunities and Challenges	Sector-focused session on Energy
Investors' Perspectives	Sector-focused session on Transportation
Opportunities in Equity	Sector-focused session on Digital Infrastructure
Opportunities in Debt	Fiscal and Regulatory Issues

PAST PARTICIPANTS

Our conferences have elicited an excellent response from speakers and delegates from the following organisations:

Adani Global | AdaniConneX& Adani Global Pte Ltd | APG Asset Management | AV SW Green Energies Pte Ltd. | Bharat InvITs Association | Blueleaf Energy Asia | British International Investment PLC | CapitaL and Investment | Citius Transnet | Clifford Capital | Clime Capital | Crédit Agricole CIB | Cube Highways Growth Advisory Pvt Ltd. | DBS Bank | Deutsche Bank AG | EAAA India Alternatives Ltd | Foresight Fund | Genesis Ray Energy, GIC | GIFT International Fintech Innovation Hub | Grand Housing (Infra) Limited | Growald Climate Fund, ICICI Bank Singapore | IIFCL | IndiGrid Infrastructure Trust | Investec Capital Services (India) Pvt Ltd, iSquared Capital | JLL Capital Markets | JRT Partners | Kamakshi Glocal | Keller Foundations (SE Asia) Pte Ltd | Kesar Petroproducts | Khaitan& Co. | KPMG Services Pte. Ltd. | Luthra & Luthra Law Offices | Macquarie | Madhav Infra Projects Ltd. | Mavuca Capital Advisors Pvt. Ltd. | MVK Infrastructures Private Limited, Niraga Capitals Private Limited | NTT Global Data Centres, Omers Infrastructure, One Ness Creation, Sarthak Advocates & Solicitors | SEBI, Shivalaya Constructions Limited | SKV Law Offices | SMU | State Bank of India | Singapore branch, Temasek, Trust Group | UBS Bank | Vizoner Infra Advisors Ltd. | World Bank.

Abu Dhabi Investment Company | Abu Dhabi Investment Council | Abu Dhabi Ports Group, Asian Infrastructure Investment Bank | A.P. ORGANISERS

The **India Infrastructure Forum** is an initiative of India Infrastructure Publishing, which is a leading provider of information, analysis and insight on infrastructure sectors in India. The mission of the Forum is to provide a collaborative mechanism for key stakeholders – policymakers, developers, contractors, regulators, investors and consultants. The Forum offers a platform to highlight key government initiatives and investment opportunities; discuss key issues faced by developers and investors and facilitate partnerships and improve understanding among different stakeholders. The Forum is supported by NITI Aayog, IIFCL, Ministry of Housing and Urban Affairs and Ministry of Shipping, and a number of government organisations/PSUs and private sector organisations.

Indian Infrastructure is the leading magazine for the Indian Infrastructure sector. It is targeted at top decision-makers and financial managers in the infrastructure sector. The sectors covered include power, telecom, roads & bridges, construction, oil & gas, ports & shipping, aviation, railways, urban infrastructure and infrastructure finance. The magazine provides news, information and analysis of the latest developments related to policy, projects and investments in these sectors in India. It is published monthly. The magazine was launched in 1998.
