OBJECTIVE: To address the key critical safety and security challenges facing marathons and running/endurance events and formally develop the sixth edition of the “Marathon and Running Events Safety and Security Best Practices” Guide.

WHO WILL BE THERE: Event administrators and staff (marathons, half marathons, 10K, 5K, and endurance events), local/state law enforcement, government officials, emergency managers, fire/hazmat, emergency medical/health services, city planners, governing bodies, sport commissions, and invited Solution Partners.

DYNAMIC DISCUSSIONS:
- Event/Race Day Logistics
- Crowd Dynamics and Management
- Emergency Action Planning
- Risk and Threat Assessment
- Education, Training and Awareness
- Command, Control and Communications
