The wholesome environment of the Summit provides select Solution Partners a unique opportunity to develop key relationships and leave with quality leads. Our partners may participate in a live marathon event as well as in small group discussions throughout the Summit. Our partners are fully integrated with attendees for two and half days - providing optimal opportunities to educate the audience on their specific solutions.

WHO YOU’LL MEET:

TOP SAFETY AND SECURITY PROFESSIONALS FROM ACROSS THE COUNTRY

Event administrators and staff (marathons, half marathons, 10K, 5K, and endurance events), local/state law enforcement, government officials, emergency managers, fire/hazMat, emergency medical/health services, city planners, governing bodies, sport commissions, and invited solution partners.

Priority is given to products/solutions that have attained the NCS4 Lab-Tested designation and NCS4 Alliance Partners.
