Sumner J. Yaffe Webinar Series Lecture Archives

As part of their collaboration with the National Institute of General Medical Sciences and National Institute of Mental Health T32 programs in pediatric clinical pharmacology, the Eunice Kennedy Shriver National Institute of Child Health and Human Development presented a lecture series from 2011-2020 dedicated to the memory of Dr. Sumner J. Yaffe, considered by many to be the father of pediatric clinical pharmacology. This interactive Webinar series focused on topics relevant to pediatric clinical and developmental pharmacology.
