Whitening, Gingival Re-contouring
& Composite Resin Bonding

Full refunds are granted if notice is received at least 10 business days prior to the course. If cancellation occurs less than 10 business days prior to the course, a $75 fee per course will be withheld for processing and administrative costs. No refunds will be granted for cancellations made 3 business days or less prior to the course. If insufficient enrollment necessitates cancellation of a course, all tuition fees will be refunded. Clinical Research Dental is under no obligation to reimburse participants for airline, hotel reservations or any other costs incurred should the need arise to cancel or reschedule a program.

The participants will be able to access their learning by means of a self-assessment questionnaire included in their registration package, which will have the correct responses posted online at www.clinicalresearchdental.com or call Irene at 1-800-265-3444, ext 223 and request the responses to be sent to you.

*ADA CERP: Clinical Research Dental is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Clinical Research designates this activity for 6 credit hours of continuing education. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at ADA.org/goto/CEP.
Dr. Jaimeé Morgan received her dental degree from the University of Texas Health Science Center at San Antonio. She was recently named one of the Top 25 Women in Dentistry. She divides her professional career between clinical practice and teaching. Her lectures have spanned the globe from the United States to Europe, South America, Australia, and Asia. She regularly contributes articles to dental periodicals and journals on cosmetic dental techniques for the general practice. She has served as a founding member of the South Texas Chapter of the American Academy of Cosmetic Dentistry and has given numerous lectures at major national dental meetings. Her practice is located in Salt Lake City, Utah, where she provides cosmetic and restorative dentistry. She has earned the reputation of teaching cosmetic techniques using a practical approach, that is both enjoyable and useful.

Educational Objective

Conservative cosmetic dentistry is here to stay. This course answers the hows and whys of composite resin restorations and simplifies the technique. By following the Dental Cosmetic Pyramid developed by the speaker of the whitening, gingival re-contouring, and restoring, a new predictability, time management, achieving beautiful optical dimension, and profitability can be realized. Whether you are looking for a reliable method to restore tight proximal contacts in posterior restorations, have questions about the success of self-etch bonding agents, feel the need to decrease post-op sensitivity, or want to provide beautiful anterior restorations, this course is for you. The hands-on component gives you experience that will prepare you for clinical applications.

Hands-on Workshop

- Basic application using composite resin in a silicone mold
- Simplified layering technique - achieve exquisite results predictably and quickly while using a veneer template
- Experience a matrix system to achieve tight interproximal contacts
- Create invisible margins when performing Class IV restorations
- Learn a straightforward method of polishing composite resin restorations

Objectives

- Learn how the Dental Composite Pyramid can enhance your aesthetic results
- Discuss a simplified and practical layering technique
- Learn how to place anterior and posterior composites in a timely manner
- Gain knowledge on the importance of tissue management
- Use a veneer template for direct placement and mock ups for composite veneers
- Establish a sound protocol to establish tight proximal contacts for posterior restorations

Who should attend

The course is directed towards General Practitioners.

AGENDA

8:00 AM - 8:30 AM
Registration & Continental Breakfast
