[Register Now](#)

[Already Registered?](#)

Earn certificates in the following subjects:

- Basic Intelligence Officer
- Fundamentals in Advanced Analytical Skills
- Fundamentals in Criminal Intelligence
- Fundamentals in Criminal Intelligence Unit Supervision/Management
- Fundamentals in Cyber Investigative Tools

NOTE: To earn a certificate, you must attend both classes in that certificate track.

Each certificate class is presented twice, allowing you to choose which day to attend each class.

Your attendee badge will be scanned to verify attendance in certificate track sessions.

Use the Filters option below to sort courses by subject. (Make sure "All Dates" is highlighted above the Filter button).

Agenda

Here's what's scheduled for the event.

LEIU/IALEIA reserves the right to make any changes to the program at its sole discretion. Every effort will be made to keep presentations and speakers as represented. However, unforeseen circumstances may result in the substitution or cancellation of one or more presentation topic(s) or speaker(s).

Emerging Technology: Artificial Intelligence and Ubiquitous Technical Surveillance

8:00 AM-8:30 AM

Ubiquitous Technical Surveillance (UTS) has become an existential threat to U.S. law enforcement. The aggregation of travel, digital, electronic, financial, and physical surveillance data is used by criminal enterprises and foreign actors to identify, track, and target officers and confidential human sources.

Briefing the Decision-Makers — Intelligence at the Highest Levels (Panel Discussion)

10:00 AM-11:30 AM

Senior leaders make consequential decisions under intense pressure—often with limited time, competing priorities, and rapidly evolving information. The effectiveness of intelligence briefings at this level can directly shape public safety outcome... crisis response, and long-term strategy.
