Live-Stream Interactive Course

November 16, 2021 | 8:00am - 4:00pm, Central

Today's increased service demands and the scrutiny placed upon public safety professionals have resulted in a **growing need to master verbal conflict management skills**. When negative verbal encounters escalate to the point where physical intervention is used, criticism often results when it is later discovered that there is little evidence of verbal de-escalation techniques employed by officers.

Verbal De-escalation training provides public safety professionals with **time-tested communication skills proven to help de-escalate volatile situations**, safeguard fellow officers' emotional and professional well-being, and significantly enhance the agency's professional image. The course also provides opportunities for the participants to engage in **practical skill building** so that when they complete the training they are well on their way to becoming more effective professionals in communication.
