Thursday, 2:00 pm – 3:30 pm

Room: 201AB

#17TLD03 – Lecture/Demo

Step beyond following patterns and discover the joy of creating from your own imagination. Rhapsody Quilts are elegant medallion-style quilts distinguished by graceful curved piecing, exquisite appliqué, and beautifully balanced symmetry. Following basic principles and guidelines, this lecture/demo class will show you how to design and create your own Rhapsody legacy quilt and teach you the piecing and appliqué methods required for success. While Rhapsody quilts appear remarkably intricate, you'll discover the thoughtful design process that makes them surprisingly achievable.

Unlike traditional block-based quilts, Rhapsody quilts are created on a symmetrical framework (the "skeleton") that grows into a one-of-a-kind composition reflecting your own ideas, memories, and artistic vision. This lecture inspires you to think beyond patterns and discover how a Rhapsody quilt can become a treasured expression of your creativity.

This is a lecture/demo class.
