The Music in My Quilt

Ricky Tims

All Levels

Friday, 9:30 am – 11:00 am

Room: 201AB

#17FLD04 – Lecture/Demo

What do music and quilting have in common? More than you might imagine.

In this fascinating lecture, Ricky Tims explores the remarkable parallels between the design elements of visual art and the compositional devices of music, revealing how both work together to create dynamic, beautifully designed quilts. Drawing on his unique background as both an accomplished musician and internationally recognized quilt artist, Ricky demonstrates how rhythm, harmony, contrast, repetition, balance, movement, and variation influence quilts every bit as much as they influence music.

Whether your passion is traditional quilts, contemporary quilts, or somewhere in between, you'll gain fresh insight into the universal principles that elevate every successful design. Prepare to see quilts—and creativity itself—through an entirely new lens.

This is a lecture/demo class.

Member: \$36 Retail:\$45
(Plus Material Fee)

Required Materials Include: Color spiral-bound Syllabus

Material Fee: \$20 payable in class, cash preferred
