LONGARM**

Ever stare at a quilt top and wonder what now? You're not alone— this workshop is here to help! Together, we'll explore how to spot and shape both positive and negative space, then use them to create beautiful, high-contrast textures that elevate your quilting. Learn how to highlight what matters, fill in the blanks with purpose, and give your quilts that truly custom look and feel. If you're ready to stop second-guessing and start designing with confidence, this workshop is for you! **Two people per machine.**
