

CoDA 2016

March 2-4, 2016 | Santa Fe, New Mexico
Exploring Data-Focused Research across the Department of Energy

Join us for the **Conference on Data Analysis**, highlighting data-driven problems of interest to the Department of Energy. Talks and posters will feature research from the Department of Energy national laboratories, academia, and industry.

Banquet Speaker: Rayid Ghani, Program Director,
Data Science for Social Good, University of Chicago.

Call for Posters: Deadline February 3, 2016
Present your data-focused work at the CoDA 2016 poster session!

The CoDA 2016 invited program explores six themes:

- Power Grid Data
- Subsurface Modeling
- Multisource Data
- Cybersecurity
- Data Analysis at Exascale
- Really Expensive Data
