Mozaik
A Cyncly Company

Get to know Mozaik

Software built for the way real shops work.

Easily create floor plans, elevations, 3D views, and cutting lists, ensuring your designs are accurate and detailed.

Try Mozaik

With Mozaik, start efficiently. Scale seamlessly.

Cabinetmaking software that takes you from design to manufacture, **fast.**

- Easy to use
- CAD tools
- Cloud rendering with one-click
- Experienced Australian-based support
- Affordable, subscription-based pricing

More features you’ll love.

Custom cabinets without the hassle

Drag-and-drop accessories straight into your cabinets—lazy susans, pull-out bins, lift-up hinges, spice racks, and more—ready for machining in minutes.

Perfect MDF doors, every time

Quickly design detailed MDF doors, then automate the machining process. Consistent quality made easy.

Support from people who get it

Our Australian-based support team knows cabinetmaking inside-out. You’ll get practical, reliable help whenever you need it.

Trusted to deliver for Australia and New Zealand.

Make cabinets quicker and easier.

Whether you’re running a small cabinet shop or a larger production, Mozaik simplifies your entire workflow—from design to finished cabinets.

What makes Mozaik different?

Easy
Intuitive and easy to learn—no complicated training required.

Professional
Add dimensions, labels, and notes to present your work clearly and confidently.

Affordable
Simple monthly subscriptions—no big upfront costs.

Scalable
Mozaik Software easily scales with you as your business grows.

Local
Friendly, responsive support right here in Australia.

Fast
CAD tools speed up design, production, and client presentations.

Even better with Mozaik V14.

Mozaik V14 brings major upgrades for faster, clearer, and more precise design and manufacturing.

Instant library updates

Quickly import updated hardware, products, inserts, and tooling specific to your region—no more manual installations.

Customised drawing templates

Easily create professional templates with instant preview and control over dimensions, layers, and styles.

Enhanced textures

Edit colours and textures of imported 3D models within Mozaik—no external software needed.

Smarter 3D viewer

Dynamic Materials auto-assigns textures, reducing the number of templates you need—perfect for prefinished boards.

New CAD and annotation tools

Powerful new drawing tools, line-editing features, and flexible annotations speed up your workflow and give you greater design control.

Cloud Rendering

Create professional, photorealistic renders*—no high-end hardware needed, and no slowdowns while you work. Upload, Render, Download all with one click.

Rendering add-on available for $50USD/month.

The all-in-one cabinetmaking solution.
