Spaces Flex

The simple way to design and sell kitchens

Spaces Flex is the ultimate web-based solution for kitchen retailers, enabling a seamless journey from inspiration to final design. With user-friendly tools, real-time 3D visualization, and flexible configuration options, Spaces Flex adapts to each customer's preferred shopping experience—whether online, in-store, or with a designer.

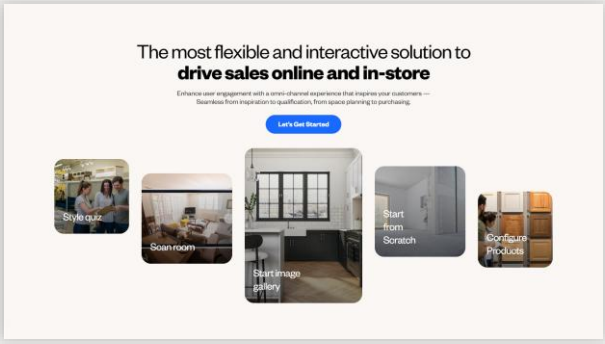

By capturing customer preferences and streamlining design accuracy, Spaces Flex helps retailers accelerate conversions and deliver dream kitchens with ease.

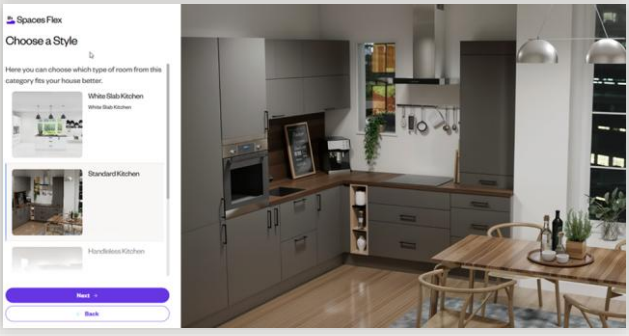

Flexible design journeys to meet every customer's needs

Online Experience
Empower customers to explore design ideas online at their own pace. Spaces Flex captures their style and preferences, creating a seamless transition to in-store visits where they arrive engaged and ready to bring their vision to life.

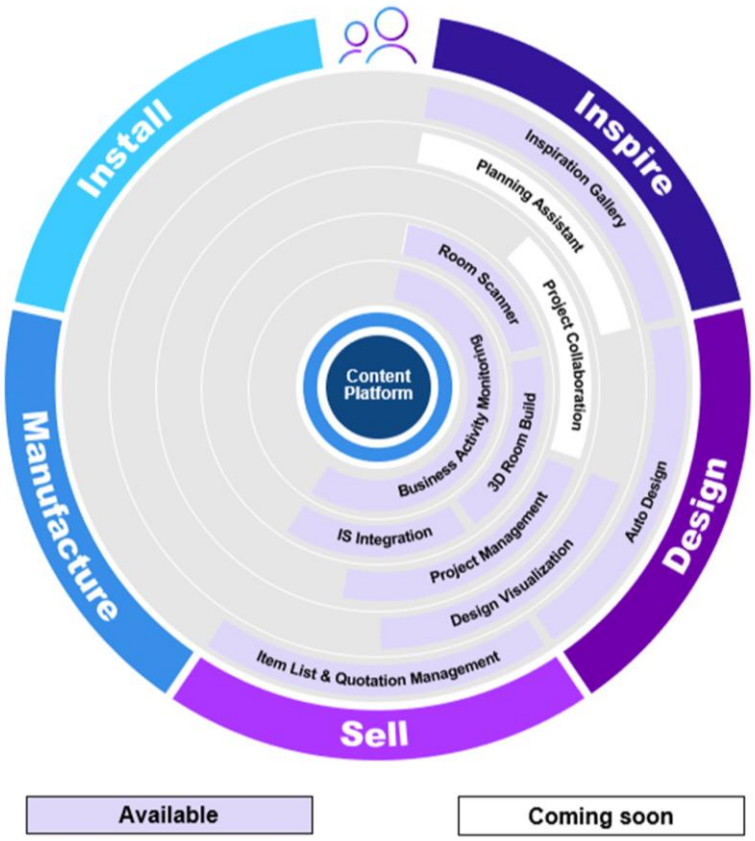

In-store assistance
For those seeking guidance, Spaces Flex offers intuitive tools that help sales teams assist with design choices—no experience required. This collaborative journey moves smoothly from ideas to decisions, creating a tailored, confident experience.

Professional Design
Give customers a hands-off option by letting them share their vision and entrust a designer with the details. Spaces Flex enables designers to create aligned, personalized results, offering a quick, effortless path from concept to completed design.

Spaces Flex powers the Inspire-Design-Sell journey with adaptable capabilities for every customer path.

Spaces Flex is designed to support every step of the Inspire-Design-Sell journey, offering flexible, powerful capabilities that adapt to various customer needs. As shown in the graphic, these capabilities—from room scanning and 3D room builds, to project management and item quotations—enable seamless transitions across different journeys.

Spaces Flex empowers retailers to guide consumers wherever they are, whether they're seeking inspiration, in-store design assistance, or full professional support.
