AI Revolution Turns 4

A low-angle, upward-looking photograph of the Petronas Towers in Kuala Lumpur, Malaysia. The two towers are the central focus, their intricate, curved, and ribbed facades creating a complex geometric pattern. They converge towards the top of the frame against a clear, vibrant blue sky. A horizontal skybridge connects the two towers at a mid-height, with four white, angled support beams visible. The perspective creates a strong sense of height and architectural scale.
